RULES

General CKFF Rules & Regulations

1. All possible care will be taken of exhibits, but the Central Kansas Free Fair Association will, in no case, be responsible for any loss or damage sustained.
2. No claims for injury to any person or property shall be asserted nor suit instituted or maintained against the Central Kansas Free Fair, its officers, or their agents by or on behalf of any person, firm or corporation or their agents, representatives, servants, or employees having licenses or privileges to exhibit on the fairgrounds or occupy any space thereon.
3. If any damage, loss or injury of property shall be caused by reason of neglect or willful act of any persons, firm, corporation, their agents or representatives, servants or employees, having license privilege to exhibit on said fairgrounds or occupying space thereon, the Central Kansas Free Fair shall not, in any manner, be responsible therefore and in case it be subjected to any expense or liability and all persons, causing game or liable therefore, shall indemnify the Central Kansas Free Fair at Abilene, Kansas. The Central Kansas Free Fair Association will not be responsible for accident to or death of any animal from any cause, before, during or after the fair.
4. The management reserves the right to remove from the grounds any person, exhibit, animal, concession or show that may be falsely entered, disregards departmental rules, or may have any sign, banner or advertising matter of any kind, which may be deemed unsuitable or objectionable by them without assigning a reason therefore, and, if necessary, return any money already paid for space or stalls which shall exonerate them from any claim whatsoever on the part of the exhibitor or purchaser.
5. Grievance Committee: The Central Kansas Free Fair Association reserves to its Board of Directors the right to finally determine the correct application of any rule herein published and further to amend or add any special rules for the conduct of said fair that may be deemed necessary and expedient. To file a complaint

— must be written and have contact name, phone number and \$100 filing fee within 8 days of the incident. If there is no justification, CKFF retains the filing fee.

6. Each superintendent will oversee the department at the discretion of the Board of Directors. Fair superintendents reserve the right to recommend one or all fair premiums be withheld if Central Kansas Free Fair guidelines are not followed.
7. All commercial exhibitors and concessionaires are required to remit their rental fees and/or other monies by May 15th or make appropriate arrangements with the Secretary for final settlement within two weeks of fair closing.
8. Each concession must confine themselves to the space assigned. Failure to do so will subject them to forfeiture of their privilege.
9. Premium checks: 4-H & open class premium (ribbon) checks will be available after Monday, August 24, at K-State Extension, Chisholm Trail District - Dickinson County, 712 S. Buckeye, Abilene, from 8:00 am – 5:00 pm, M-F. Checks MUST be picked up within 30 days and cashed within 90 days of the closing of the fair. Premium checks will not be mailed. After 90 days, any premium checks not cashed will be considered a donation to the Central Kansas Free Fair.
10. K-State Extension is committed to providing equal opportunity for participation in all programs, services, and activities. Discrimination based on race, color, ethnicity, national origin, sex, sexual orientation, gender identity, religion, age, ancestry, disability, genetic information, military status, or veteran status is prohibited. Program participants may request information in languages other than English. Reasonable accommodations for persons with disabilities, including alternative means for communication (e.g., Braille, large print, audio tape, and American Sign Language) may also be requested. Language access services, such as interpretation and translation of vital information will be provided free of charge to limited English proficient individuals upon request.
To request a disability accommodation, complete the [Reasonable Accommodation Request Form](#). For those requesting accommodations for a local extension program, please work with the extension agent in your local office to complete this form. Formal complaints related to discrimination, harassment and bullying can be submitted to [KSU's Office of Institutional Equity](#).
11. Brand names appearing in this publication are for product identification purposes only. No endorsement is intended, nor is criticism implied of similar products not mentioned.
12. TOBACCO-FREE FACILITIES: The Central Kansas Free Fair does not allow the use of tobacco products, including vape and e-cigarettes, and smokeless tobacco/chew on the Central Kansas Free Fair grounds and facilities which include Sterl Hall.

Livestock Rules

1. All entries must be made in the name of the owner.
2. Exhibitors are limited to 2 animals per class - 3 meat goats in same weight class.
3. Exhibitors are responsible for entering their exhibits at the designated entry time. An exhibit not presented promptly at scheduled time will be ruled out and barred from competition in the class.
4. Complaints or protests on the grounds that the judge overlooked exhibits will not be considered.
5. Superintendents reserve the right to combine classes where limited numbers are entered.
6. The Board of Directors reserves the right to view/test animals for diseases known in the area.
7. Exhibitors of livestock are requested to decorate stalls as tastefully as possible, and must keep them clean, neat, and attractive. Fans must have a commercial grade 3-prong electrical cord (no. 2-prong cords with a 3-prong adapter). Fans must be electrically safe to be put in barns.
8. **Exhibitors are to provide bedding and keep stalls bedded.** All stalls are to be cleaned by 10 p.m. Sunday, except livestock sale animals, 10 p.m. Monday. **All used bedding must be placed on Pine Street, in designated area.**
9. No feed or hay shall be sold on the grounds without permission from the management.
10. Livestock & horse trailers are to be parked in the Washington Street or 8th Street lots.
11. LIVESTOCK HEALTH REQUIREMENTS:
 - A) BEEF/CATTLE: No health certificate required. Animals showing symptoms of infections or contagious disease, or parasites may be rejected by a superintendent. Brucellosis Requirements: All cattle over 18 months of age, except steers, must meet one of the following requirements:
 1. Originate from a Kansas herd. No brucellosis test required.

2. Cattle over 18 months of age originating from another state must have a negative brucellosis test within the past 60 days.
 3. Ages of cattle – no market animals over 24 months or reserve the right to mouth them if age is in question.
 4. Originate from a Kansas dairy herd with four consecutive current negative milk ring tests.
 5. Cattle not qualifying under #1 or #3 must indicate a negative blood test for brucellosis in an approved State-Federal Laboratory within 60 days of the exhibition date.
- B) DAIRY GOAT: No health certificates required. Dairy goats with boils or with recently opened boils will be rejected. Goats showing signs of disease will not be allowed to unload. Goats must be free of active fungal (ringworm) infection, including sore mouth.
- C) MEAT GOAT: All meat goats must be inspected by a superintendent before unloading and must be free of active fungal (ringworm) infection, including sore mouth. If any goat is rejected, all goats transported in the same vehicle will be rejected.
1. Inspection Times: 8 am – 1 pm., Wednesday.
 2. Goats originating in Kansas must meet the general requirements. All sexually intact (does and bucks) and wethers must be identified with a registered tattoo or an official USDA premise ID tag. Kids under 8 weeks of age, accompanying their dams, are exempt from tagging requirements.
- D) HORSE: No health certificate required. Horses showing signs of disease will not be allowed to unload. A negative Coggins test within the past 12 months is **REQUIRED**. [KAR 9-7-14](#) establishes the requirement of a negative **EIA test** (Coggins) for horses that are changing ownership or are used for exhibition purposes which must be completed in the previous 12 months. This requirement includes horses that originate outside the state of Kansas **or from within** the state of Kansas.
- E) POULTRY:
1. All poultry (except waterfowl) are required to show proof of being P-T clean by one of the following:
 - Originate from a certified U.S. Pullorum-Typhoid clean flock.
 - Test negative at check-in of the county fair when the county has been designated by KDA-DAH for surveillance. Routine surveillance testing will be performed for each county fair a minimum of once every 5 years. **Testing will be done at entry time.** Exhibitors can contact the Extension Office with questions. All reactors must be submitted to the KSU Veterinary Diagnostic Lab for autopsy.
 2. All poultry must be free of lice. All birds should be treated with Malathion dust about 14 days and again 3 to 4 days ahead of the fair. (Fluff the feathers as the dust is applied paying particular attention to the vent or rear of the bird.)
- F) RABBIT AND PIGEON: No health certificate required. Any rabbit or pigeon showing signs or symptoms of infectious or contagious disease or parasites will be rejected at time of entry or at any time thereafter will be removed from the rabbit barn promptly.
- G) SHEEP: No health certificates required. Sheep showing symptoms of infectious or contagious disease (including sore mouth and fungus) or parasites may be rejected. All sheep must have an official USDA premise ID tag (scrapie tag) in place to unload and show. All sheep must be inspected by a superintendent before unloading.
1. Inspection times: Wednesday, 8 am – 1 pm.
 2. Sheep suspected of fungus will be further inspected by a veterinarian. If any lamb is rejected, all sheep transported in the same vehicle could be rejected.
- H) SWINE: Check-in times: Wednesday, 8 am – 1 pm. All swine must be inspected by a superintendent before unloading. This is a non-terminal show.
- I) CAT:
1. No Health Certificates required. Proof of vaccination required prior to show. Any cat or kitten that has had an infection or contagious illness within 10 days prior to the show may not be shown.
 2. Cat or Kitten must have been vaccinated for FVR CP/P within the last year and rabies within 2 years.
 3. Owners will be asked to remove the cat from the premises if fleas are present on the animal.

- J) DOG: No Health Certificates required. All vaccinations must be current.

4-H/FFA Division General Rules

Eligibility

1. Only current Dickinson County 4-H and FFA members who were 7 years of age but not yet 19 years of age before January 1 of the current year are eligible to participate in the CKFF 4-H/FFA division. There is one special class for enrolled 4-H Cloverbud members (age 5-7).
2. Members will be allowed to exhibit only in those projects in which they are enrolled.
3. If a 4-H club member did not complete projects and records in the previous 4-H year (exception - current first year members), projects for this 4-H year can be exhibited but premium will be held at the Extension Office until the current year's records are completed and checked by the Organizational Leader.
4. The exhibits in this department must be handiwork of the exhibitor when skill is required; the owner when agricultural exhibits are entered; and the owner and feeder 143 days for market beef, 91 days for market barrows, 85 days for market lamb, and meat goat, and 80 days for breeding beef, dairy, swine, dairy goat, and 89 days for bucket calf. Horse exhibitors must have submitted a Horse Identification form at the County Extension Office by June 1 of current year and have managed the horse at least 75 percent of the time May 1 - Sept. 30.
5. All exhibits except some livestock must have been produced or made within the current year.
6. All animals must meet the requirements as stated in the General Livestock Rules.
7. Pre-entry required at ckff.fairentry.com by July 10 for ALL 4-H/FFA entries. FFA entries must be made by contacting K-State Extension – Abilene Office.
8. Exhibit limits. Agricultural department, except where noted, two entries per class; Family and Consumer Sciences departments, except where noted, one entry per class.
9. Open Class entries: 4-H/FFA club projects will be eligible to exhibit in open class but will not be allowed to enter the same animal or article in both departments with these exceptions:
 - Poultry** - 1st and 2nd blues in each 4-H Poultry class qualify for Open Class.
 - Rabbit** - All purple-ribbon winners are eligible for show in Open Class.
 - Equine** - All entrants are eligible for show in Open Class.
 - Beef** – Breeding animals must be registered in their respective breed association to be eligible to show in Open Class.
 - Dairy** – Breeding animals must be registered in their respective breed association to be eligible to show in Open Class.
 - Dairy Goat** – Breeding animals must be registered in their respective breed association to be eligible to show in Open Class.
 - Meat Goats** - Breeding does that receive first or second blue in each 4-H/FFA class will be eligible to compete in Open Class.
 - Market Goats** - May not be shown in both 4-H and Open Class divisions.
 - Sheep** - Breeding animals must be registered in their respective breed association to be eligible to show in Open Class. The same market lamb may not be shown in both 4-H and Open Class divisions.
 - Swine** - Breeding animals must be registered in their respective breed association to be eligible to show in Open Class.
 - Market Swine** - May not show in both 4-H and Open Class divisions.
10. Be sure that your exhibits and property are well labeled. See special rules under each division.
11. It is each exhibitor's responsibility to see that the superintendent has properly entered their exhibits.
12. All possible care will be taken of the exhibits, but the Central Kansas Free Fair Association will in no case be responsible for any loss or damage sustained.
13. Exhibits related to Shooting Sports should follow the Best Management Practices of National 4-H Shooting Sports and Kansas State Law.
 - a. **National 4-H Shooting Sports Minimum Standards and Best Management Practices** - Regarding simulated combat sports including but not limited to, paintball guns, air-soft, laser guns, archery tag. Pointing any type of gun including paint ball guns, air-soft guns, laser guns, laser paint-ball, archery tag bows & arrows or sighting devices at any person or any humanoid-shaped target is inappropriate at any 4-H program activity.

- b. **Kansas Law** – Kansas firearm laws regarding possession require that a person be at least 18 years of age. Minors under the age of 18 may possess firearms if under the supervision of parent, legal guardian, or qualified instructor. A minor engaged in activities such as hunting, trapping, and competition shooting are allowed to possess firearms during the activities. This also includes the transportation of the firearm to and the locations of such activities, including their related safety and instruction courses of classes—with the consideration that the firearm be unloaded and not be in the immediate reach of the individual. Possession of firearms at the minor’s place of residence is also allowed, in so far that permission is granted by a parent or guardian. Kansas firearm laws place a strict focus on situations that involve people convicted of felonies and the involvement of firearms.

Use of Copyrighted Materials

4-H exhibitors (individual or group) should avoid using copyrighted materials whenever possible by originating his/her own work. A 4-H member or group should use with caution, a copyrighted and/or trademarked product or service (a brand name, label, or product). The intent of using the copyright or trademark materials for educational purposes such as an exhibit, educational poster/display or public presentation is acceptable under the “Fair Use” (legal use) provision. “Fair Use” is a provision of the current copyright law that allows reproduction without payment or permission of limited portions of a copyrighted work for educational and other public interest purposes.

Regardless of the “Fair Use” provision, the inference that a specific name brand product is good or bad inherently or through comparison must be done cautiously, using acceptable research/comparison methods and have a disclaimer that the conclusions are those of the 4-H participant and not those of K-State Extension.

Copyright and trademark are legal methods used by writers, artists, corporations, and others to protect their original work. Protected items may range from books to music, logos to computer graphics. State Fair Entries

1. 4-H members 9 years of age or older by Jan. 1 of the current year and FFA members with purple ribbon exhibits at the Central Kansas Free Fair may be eligible for State Fair competition provided there is a State Fair class for such exhibit.
2. State Fair livestock nominations and entries must be handled through the K-State Youth Livestock Program.

(<http://www.asi.k-state.edu/students-and-programs/youth-programs/>.)

3. For state-fair eligible purple ribbon exhibits by 4-H'ers 9 and over, 4-Hers must complete an "Intent to Exhibit at Kansas State Fair" form online by the Wednesday following the Central Kansas Free Fair, to be pre-entered into the State Fair database.

4-H/FFA Records

1. Project record books must be as complete as possible prior to the fair.
2. The records concerning your past and present work provide a personal record for you. Records also serve as a measure of accomplishments, honors and recognition received. Emphasize the skills and various learning experiences in which you have participated.

Awards

1. Exhibits in classes are placed by judges in purple, blue, red, and white ribbon groups.
2. Premium checks will be awarded to individual exhibitors by the Central Kansas Free Fair Association. Checks will be available at the K-State Extension Office, Chisholm Trail District - Dickinson County, 712 S. Buckeye, Abilene (office hours 8-5 M-F) after August 24. Checks must be picked up within 30 days and cashed within 90 days to close out fair. (These are ribbon checks only, not livestock sale checks)
3. No premium will be paid for showmanship classes, rabbit fur classes, or decorator bucket calf class.
4. Special awards listed under specific departments are presented at the time of selection. Monetary awards may be picked up at the Extension Office after August 24.

4-H/FFA Livestock and Other Animals Rules

Livestock Exhibits

1. No 4-H/FFA livestock will be admitted to the fairgrounds before Wednesday. All livestock must be checked in by time listed in department rules.
2. Weigh-In times: Market Beef 7 p.m. Wed.; Market Goats 4 p.m. Wed.; Swine 8 a.m. Thursday; Breeding Sheep 4 p.m. Wed.; Sheep 4:30 p.m. Wed. No re-weighs will be allowed.
3. Any animal that cannot be shown in a regular and customary manner may be disqualified.
4. Livestock show order and classes will be posted at each barn. When numbers warrant, a class may be divided, combined, or cancelled.
5. Livestock exhibitors must show their own entries (*including showmanship*) with these exceptions:
 - A) If a 4-H/FFA member has two entries in the same class or has livestock entries in two divisions being shown at the same time, another 4-H/FFA member must be ready to exhibit the livestock when the class is called.
 - B) In case of illness, doctor's order required for another 4-H/FFA member to show exhibits.
6. Care of Animals during CKFF: 4-Hers may have help with animals from immediate family members or other current Dickinson County 4-H/FFA members eligible to exhibit at the CKFF.
7. Following the judging, the grand and reserve grand champion market beef, barrows, lambs, and meat goats must be stalled in special stalls, if designated by the superintendent.
8. All livestock must be kept well groomed. Stalls must be kept clean and orderly, and be cleaned by 10 p.m. Sunday, except livestock sale animals, 10 p.m. Monday, to receive premium money.
9. Lightweight 4-H market animals and heavyweight market animals will be placed in special classes, judged, and receive ribbon and premiums but will NOT be allowed in the livestock sale.
10. **No animals will leave the grounds after checking in on Wednesday until checkout time on Sunday.**
11. Pre-entry in all classes due at ckff.fairentry.com by deadline. 4-H Market Livestock owner certification and drug withdrawal form plus feed and care record for market beef will be submitted with Livestock Sale Intent to Sell Cards following livestock shows. **ONLINE ENTRY REQUIRED, including Showmanship Classes.**
12. Livestock tagging: All market animals must have an official 4-H tag in place from the official county weigh-in. Tagging will be recorded by family (household). By the pre-entry deadline, families must

declare which animals each individual family member will show. Registered animals must be registered in the name of the 4-H/FFA member. Animals may be registered in more than one Dickinson County 4-H/FFA member name; however, all names appearing on registration forms must be Dickinson County 4-H/FFA members.

13. Animals used in showmanship classes must have been entered in either a 4-H market or breeding class by the showmanship exhibitor.
14. Only Champion and Reserve Breed Champions (meat goat class and reserve class champions) will be considered for Top 5 Overall.

4-H/FFA Livestock Sale Rules

1. The CKFF 4-H/FFA Livestock Sale is a premium per head auction. The order of sale will be rotated each year. Pinnacle Bank serves as clerk for the sale.
2. The CKFF 4-H/FFA Livestock Sale is a terminal auction which includes market beef, market barrows, market lambs, and market goats. All animals will be shipped to the selected packer/buyer unless designated by the buyer as "butcher." Each buyer of a "butcher animal" must then pay the announced market price plus the premium and designate their choice of a locker plant and make loading arrangements. All animals must be designated either to go to a locker or on the truck, they may not be kept.
3. If a 4-H/FFA member sells in another county 4-H/FFA premium sale, they can show another nominated animal but not sell in the CKFF Livestock Premium Sale but can go as an extra.
4. 4-H/FFA members may sell a maximum of two species. One market beef weighing 1,000 pounds or more, one 217 to 303-pound barrow, one 90+ pound lamb, one meat goat 55 pounds or more. Weigh-in weight will be show and sale weight, no reweighs allowed. Market animals must be awarded a red ribbon or higher on the Danish system to sell in premium sale. White ribbon animals may be sent as "extras" but will not be allowed in the premium sale. Extra tagged 4-H cattle may go on the truck, if room is available; those animals shown at CKFF have first priority.
5. Youth with market animals must complete an "Owner Certification of Market Animals" Drug Withdrawal Certificate regarding use of animal health aids, growth promoters or other livestock management substances at time of pre-entry. To sell an animal, the owner must complete Youth for the Quality Care of Animals (YQCA) training and provide certificate number and expiration date at time of pre-entry. If Zilmax is fed to beef cattle, 4-Her may sell in the premium sale, but is responsible for selling their animal to a local butcher.
6. The Grand Champion animals from each of the four species are not required to sell in the livestock auction.
7. Intent-to-Sell cards are due immediately following completion of beef/sheep/swine/goat show. Each 4-H/FFA member who plans to participate in the Livestock Sale is responsible for obtaining and returning a completed intent-to-sell card for their animal(s) as soon as possible to the Fair Information booth or the announcers stand so the sale order can be determined. No changes will be allowed after specie intent to ship/sell cards are turned in. Intent to sell/ship cards are due 30 minutes after the end of the show. Any changes must be finalized by 2 PM on Saturday or 30 minutes after the end of the swine show, whichever is earliest.
8. Animals sold in the sale may only be sent to a local butcher by the premium buyer. If not kept by the premium buyer, the animal will go to the floor buyer. Animals may not be kept by families.
9. The sale committee reserves appointments with local butchers for animals that are sold IN THE SALE and kept local by the buyer. ***Families are responsible for making their own locker appointments and transporting to the locker any animals they plan to keep or sell privately.*** Appointments reserved by the CKFF livestock sale committee for sale buyers WILL NOT be used for animals that did not go through the sale. In case there is a gap between the sale and when the locker can accept sale animals, families continue to be responsible for animal care and feeding. Extra animals may continue to be sold to the floor buyers, if they meet buyers' requirements, i.e. minimum weight. Lightweight animals will only be purchased at floor buyer discretion.
10. Families are responsible for the care of animals until they go on the truck to be shipped or transported to local butcher as scheduled.
11. Each 4-H/FFA member will receive a Livestock Buyer's ribbon to present to the buyer. The cost of the ribbon, postage, hosting, species check-off, and hauling may be deducted from all sale checks. Yield & Grade market beef will also have deductions for data collection.

12. Checks for all market animals will be held until all animals pass slaughter inspection and have been proven to comply with all CKFF rules. Checks will be available only after the receipt of buyer thank you verification.
13. MARKET BEEF:
 - A) All 4-H market beef will be checked in 8-1 p.m. Wednesday and weighed 7-9 p.m. This one weigh-in will be show and sale weight.
 - B) All market beef will be sold yield and grade unless designated “butcher” by the buyer. Each 4-Her retains ownership of his or her yield and grade beef until it is slaughtered. Payment will be based on the hot carcass weight, quality grade (Prime, Choice, Select, No Roll, etc.) and yield grade (Yield Grade 1-5); dark cutters caused by age and stress bring less; tanked or rejected carcasses bring nothing.
 - C) Heifers may be shown in Market or Breeding, not both.
14. MARKET BARROWS: All barrows will be weighed Thursday 8 a.m. This one weigh-in will be show and sale weight. Sale barrows are numbered by superintendents Sunday evening. Extra barrows will be weighed following marking of sale barrows.
15. MARKET LAMBS: All market lambs will be weighed Wednesday at 4:30 p.m. This one weigh-in will be show and sale weight. Sale lambs are numbered by superintendents on Sunday evening.
16. MARKET GOAT: All market goats will be weighed Wednesday at 4:00 p.m.
17. The committee reserves the right to re-weigh any animal at any time.
18. Exception to General 4H/FFA Division Rule #7: Late entries will be accepted up to 5 days following the entry deadline when accompanied by a late fee of 10% of the last year’s average premium rounded up to the nearest \$5 increment per species. **Late fees: \$110=Sheep \$120=Swine \$140=Cattle \$85=Goats**
19. Exhibitors must be present to sell an animal in the premium sale. Extenuating circumstances must be approved by a majority of the livestock sale committee. Prior arrangements must be made 24 hours before the premium auction. (Exception-family emergency.) Premium money will be forfeited if a situation occurs without prior approval.
20. The sale committee reserves appointments with local butchers for animals that are sold IN THE SALE and kept local by the buyer.
21. ***Families are responsible for making their own locker appointments and transporting to the locker any animals they plan to keep or sell privately.***
22. Appointments reserved by the CKFF livestock sale committee for sale buyers WILL NOT be used for animals that did not go through the sale. In case there is a gap between the sale and when the locker can accept sale animals, families continue to be responsible for animal care and feeding.

4-H/FFA ANIMALS

4-H/FFA Beef

Judging - Friday, 8 a.m., Large Livestock Arena

SuperintendentsRoger Forsyth, Greg Acheson

Assistant Superintendent Elizabeth Perks, Jensen Woodworth

2nd Year Bucket Calf Superintendent.....Laird Riffel

1. Read General 4-H rules, Livestock Sale section, and Livestock Rules for Health Requirements.
2. Pre-entry in all classes due at ckff.fairentry.com by deadline. **ONLINE ENTRY REQUIRED, including Showmanship Classes.** 4-H Market Livestock owner certification and drug withdrawal form plus feed and care record for market beef will be submitted with Livestock Sale Intent to Sell Cards following livestock shows.
3. Each exhibitor is limited to 3-market beef, which may consist of any combination of market steers or heifers. All must have an official 4-H tag in place and been weighed at the official county weigh-in.
 - A. All market beef animals must be steers or heifers. No stags or bulls are allowed to show.
 - B. No horns or scurs allowed on market animals
 - C. Market beef classes will be divided per breed and weight. At time of weigh-in steers will be breed classified by superintendents. Steers will have to show typical breed characteristics as determined by the superintendents.
 - D. Heifers can be shown in Market or Breeding, NOT BOTH.

Requirements for each breed are as follows:

Any purebred steer that is to be shown in a breed class must have registration papers according to their respective breed association requirements or have a letter from the breeder, approved by the superintendents, that the animal meets the following requirements for each respective breed.

ANGUS: must have American Angus Association registration papers and corresponding tattoo or freeze brand.

CHAROLAIS: A Steer Certificate of exhibitor ownership is required from the American International Charolais Association (AICA) that states at least 50% Charolais parentage from either a registered purebred cow or registered purebred bull; animal will also exhibit Charolais breed characteristics.

CHIANINA: must meet registration requirements as defined by the American Chianina Association, be registered with ACA and have a legible tattoo corresponding to the registration papers.

GELBVIEH: must be 3/8 Gelbvieh or greater.

HEREFORD & POLLED HEREFORD: must be out of a registered or purebred cow. They must have a Hereford steer certificate obtained from the American Hereford Association or a Kansas Polled Hereford Association steer certificate.

LIMOUSIN: must be 50% or higher, sired by a registered Limousin bull or out of a registered purebred Limousin Cow. Steers need not be registered but exhibitors must provide a completed KLBA steer certificate obtained from the breeder.

MAINE-ANJOU: must 1/4 or higher Maine-Anjou, registered with the American Maine-Anjou Association, and have a legible tattoo corresponding to the registration papers.

RED ANGUS: must be 50% or greater from one registered parent. Steer must be 85% Red in color, polled (no scurs) and display sufficient breed characteristics which match percent of registration. All steers must be properly tattooed. Tattoos must be legible and must match the registration certificate.

SHORTHORN: must be minimum 93% Shorthorn blood and present Kansas Shorthorn Association verification certificate or American Shorthorn Association purebred registration certificate. Verification certificates are available from Kansas Shorthorn Association secretary or the steer breeder.

SIMMENTAL: 50% or higher, accompanied by an American Simmental Association performance pedigree and have legible tattoos corresponding to the accompanying performance pedigree.

AOB: (All Other Breeds) Other breed that is not recognized above

CROSSBRED STEER

MARKET HEIFER: will show by weight

SECOND-YEAR BUCKET CALF MARKET BEEF: bucket calf steer or market heifer identified with an official Kansas 4-H ear tag at the previous year CKFF.

All heifers must be permanently identified with an ear tag or tattoo. Registration ear tags must be used by breeds whose associations issue them. All heifers to show in breed classes must be accompanied by registration papers. All registered heifers must have original registration papers in the name of the exhibitor prior to July 1 of the current year. Transfer papers will not be accepted in registered classes.

ANGUS: must have American Angus Association registration papers.

CHAROLAIS: must have American International Charolais Association (AICA) registration papers.

PERCENTAGE CHAROLAISs: must be registered 50% Charolais. Heifers must meet registration requirements as defined by the American International Charolais Association (AICA) and have registration papers.

4-H/FFA Meat Goats

Judging, Thursday, 6 p.m. – Large Livestock Arena

Check-In - Wed. 8 a.m. - 1 p.m. – Weigh-In 4 p.m. Exhibitor Meeting – Wed. 3:45 p.m.

Superintendent Mackenzie Riffel and Garrett Bulk

Assistant SuperintendentsLaird Riffel and Tom Lehman

ONLINE ENTRY REQUIRED, including Showmanship classes by deadline. 4-H Market Livestock owner certification and drug withdrawal will be submitted with Livestock Sale Intent to Sell Cards following livestock shows.

1. Health Requirements:
 - a. Goats originating in Kansas must meet the general requirements.
 - a. Be free of signs of active fungal (ringworm) infection, including sore mouth. If a goat is rejected, all goats transported in the same vehicle will be rejected.
 - i. b. All sexually intact (does & bucks) and wethers must be identified with a registered tattoo or an official USDA premise ID tag (“scrapies” tag). Kids, under 8 weeks of age, accompanying their dams, are exempt from tagging requirements.
2. Market goats must be inspected by a superintendent before being unloaded.
3. ID/Ownership:
 - a. Market goats must have an official 4-H ear tag in place and been weighed in and tagged at the county wide sheep and goat weigh in and tagging.
 - b. Breeding females must be owned by June 1, current year.
 - c. Can be any breed or combination of meat goat breeds.
 - d. An exhibitor may exhibit 3 market goats. Wethers or does can be shown in market classes. Does may be shown in market or breeding, but not both.
4. Weight: Goats must weigh a minimum of 55 pounds to be eligible for livestock sale and to show in the grand drive. No maximum weight.
5. Teeth: All goats must have baby teeth in place with no visible signs of permanent teeth.
6. Horns: Market goats must be dehorned. If horned, horns must be tipped rounded. Breeding Does should not be tipped or dehorned.
7. Grooming: Fitting is optional. Market goats must be clipped or shorn prior to their arrival. Touch-up clipping only will be allowed on the fairgrounds.
8. Shearing: Is required with an equal amount of hair above the knee and hock.
9. Bracing: Goats must be shown with all four feet on the ground. Exhibitors may use a collar, a collar with a short lead, or a halter when showing. Medium/3 mm or smaller pinch collars will be allowed. The show superintendent has the right to interpret this rule.
10. Goats must be trained to lead with halter or neck chain/lead. Animals unable to be led in normal fashion will be disqualified.
11. Communicable Disease/Club Lamb Fungus: Goats will be visually inspected for sore mouth, ringworm, and general health before they will be allowed to unload. This procedure is necessary to ensure that communicable diseases are not passed to other animals or participants. If an animal is found to be infected with sore mouth or active ringworm lesions, that animal will not be allowed to unload, and all goats transported in the same vehicle will be rejected.
12. All market goats must be born after December 1 of prior year.

Exhibits must be hung on a wire or swivel hanger (no plastic hangers) with the hook toward right shoulder of the garment. Attach articles to a hanger with safety pins. Cover items with a clear plastic bag. Multiple-piece exhibits should be fastened together.
5. Educational classes - Share with others what you have learned in the sewing & textile design project. Exhibits may be in the form of a poster, notebook, or display. Follow copyright laws as explained in the General Rules as you are preparing your exhibit. Take care to select durable materials that will withstand fair conditions. No card table displays are allowed. If the exhibit is a poster, it must not be larger than 22"x28". If the exhibit is a display, maximum size is not to exceed a standard commercial 3'x4' tri-fold display board. Name and county/district must be clearly marked on educational exhibits.
6. Recycled Clothing Project - An item made of at least 50 % recycled material (recycled means using an existing item in a new way). Could be remaking/redesigning a garment, repurposing a clothing item for a new use, etc. Must include sewing of some kind. An index card (no larger than 4"x6") MUST accompany an entry describing the recycled materials and how they were used in the item.

7. Identification Labels (sew or use a safety pin, no straight pins may be used to attach these items)
 - a. Type or print on 3" x 2½" piece of cloth: Class Number, County or District, Name, and number of pieces in exhibit, i.e. 1 of 2, 2 of 2.
 - b. Attach labels on inside of garment with a safety pin or corner stitches (back of neck, center back of waistband, or left end of apron band). Label each piece.
8. Pre-cut kits are acceptable for all clothing classes. All articles/garments must be finished for use.
9. 4-Her's 9 years and older can exhibit at state fair. Classes marked with an asterisk (*) are not eligible to be exhibited at the Kansas State Fair.
10. To enter any of the following classes, the exhibitor must be enrolled in the Sewing and Textiles, Shopping in Style and/or Fiber Arts project, as applicable.
11. Shopping in Style Division
 - a. Posters can be flat poster board or foam board, no larger than 22" x 28." 2. Tri-fold educational displays must be free standing and no larger than 36" x 48." 3. Photos of 4-H member in purchased outfit must demonstrate criteria as outlined on scoresheet. Consider multiple angles, good light and highlight details so that the judge may accurately evaluate the exhibit. Exhibits should include actual photos of 4-H members in garments and may also include pictures from magazines or the internet.
12. Fiber Arts Division
 - a. Entries must be different types of articles. Label each item. Exhibitors can make their own label on a piece of cloth with a permanent or laundry type marker. Labels should be about 3"x2.5" in size and include exhibitor name, class number and county. Mark on card if item contains recycled materials and/or is 100% wool. For all items, please indicate fiber content.
 - b. A pair of socks or mittens is considered an article and should be fastened together with yarn.
 - c. Bring yarn label to judging if possible.
 - d. Place each exhibit in a plastic bag.
 - e. See Special Wool Garment Awards under 4-H Clothing Department. A crocheted or knitted garment that can be worn may be entered in the Fashion Revue.
 - f. Special consideration will be given to articles of original design. Such articles should have a note attached explaining the original design.
 - g. There are no age-specific classes in fiber arts. The exhibitor's age and years in the project will be considered by the judges.

*552. "Flop" class. 4-H'er member of any age can enter one item that did not turn out. The judge and 4-H'er will discuss what might have gone wrong to learn and correct for the next time. Participation class with no premium.

4-H Food Preservation

1. Exhibits must have been preserved since the member's previous year's county fair and not exhibited at the previous Kansas State Fair.
2. Recipes and processing methods from the sources below are required. Recipes must be from current, tested resources listed below AND MUST BE ADJUSTED FOR ELEVATION based on your processing location, or it will be disqualified. Processing methods that will be disqualified include open kettle-canning, oven canning, sun canning, and using electric multi-cookers. If using the Presto Precise ® Digital Pressure Canner, please indicate the appliance is used for either water bath or pressure canning. Untested recipes will be disqualified for food safety reasons. Tested recipe sources include:
 - a. K-State Extension Food Preservation publications
 - b. Other University Extension Food Preservation publications
 - c. USDA's Complete Guide to Home Canning, 2015
 - d. So Easy to Preserve, 6th Edition, The University of Georgia Cooperative
3. Extension Service
 - e. Blue Ball Book Guide to Preserving, Edition 37
 - f. Ball Complete Book of Home Preserving, 2015 and 2020
 - g. All New Ball Book of Canning and Preserving
 - h. Canning mixes (i.e. Mrs. Wage's, Ball)
 - i. Pectin Manufacturers (i.e. SureJell, Ball)
 - j. [KSRE Rapid Response Center Preservation Recipes](#)
 - k. [National Center for Home Food Preservation](#)
 - l. [Ball](#)
4. Alcohol is not allowed as an ingredient in food preservation entries. Entries with alcohol in the recipe will be disqualified and not judged.
5. There are no safe recommendations to can white peaches or elderberries.
6. Each 4-Her may exhibit up to three entries per class (must be different recipes) with a maximum of 5 entries total.
7. Each exhibit must have the complete recipe and instructions attached with the entry card, or it will be disqualified. Recipe must include exhibitor name, recipe source, date of publication, and elevation of where food was processed. If using Mrs. Wage's or Ball mixes, indicate the date the mix was purchased.
8. Exhibits must be heat processed in clean, clear standard canning jars, with new matching brand (ex: use Ball® lids on Ball® jars) two-piece lids. This includes fermented foods. Do not use colored jars, fancy padded lids, fabric over wraps or cozies as they interfere with the judging process. Do not reuse jars from commercial good products (ex: spaghetti sauce jars). No fancy packs unless recipe states to do so (ex: Pickled asparagus). Jars must be sealed when entered. For food safety reasons, the size of jars used must not be larger than the jar size stated in the recipe (ex: Salsa is canned in pint jars only, no quarts). Note: There are 12-ounce, 24-ounce and 28-ounce canning jars available and may be used. Use pint jar process recommendations for 12-ounce jars. Use quart jar process recommendations for 24 ounce and 28-ounce jars.
9. Labels – Each jar or container exhibited must be labeled. The label must not cover brand name of jar. The label must give: Class No., Product, Elevation Where Processed, Canning Method (water bath, weighted gauge, or dial gauge pressure method), Process Time, Pressure (psi), Date Processed including month and year, Name, and County/District.
10. If dried food product is not in a canning jar, it will be lowered one ribbon rating. Suggested amount: 1/3 – ½ cup, or three or four pieces per exhibit. Dried products must include the recipe, preparation steps, and heating instructions. **No freeze-dried foods.**
11. All meat jerky must be heated to an internal temperature of 160 degrees F before or after drying. This is not the drying temperature! Jerky not heated to an internal temperature of 160 degrees F, will be disqualified and not be judged. Heating information can be found in "Dry Meat Safely at Home."
12. Classes marked with asterisk (*) are ineligible for State Fair competition. For State Fair competition exhibits must be sealed in non-decorated, clean standard canning jars with matching brand (use Ball lids on Ball jars or Kerr lids on Kerr jars, etc.) two-piece lids. Each exhibit must have the complete recipe and instructions attached, or it will be lowered one ribbon placing.

4-H Interior Design & Architecture

Conference Judging – Saturday before fair week by schedule beginning at 9 a.m., Sterl Hall

Superintendent Leah Hern

Assistant Superintendent Lynne Murphy, Michele Livingston

1. Read General 4-H Rules. Pre-entry required by deadline at www.ckff.fairentry.com

Project Overview:

Architecture and Design is an important aspect of creating work and living environments that feel good and serve a purpose to those who utilize them. Designing the feel, look or mood of a room with lighting, furniture, wall placement and design elements are all examples of ways to incorporate the design process into your environment. Learning and experimenting with the elements of design – color, line, value, space, shape form and texture, is important. Of equal importance is knowing how to work with the principles of design – proportion, scale, balance, rhythm, unity, and variety. Being a designer (architect, industrial/product designer, interior architect, or interior designer) starts with having an end goal in mind and using each step of the planning process to support the end goal. Good designers understand how designs makes a space look good and the components needed to put it together. The overarching goal is to create a space that is structurally sound, safe, inclusive, functional, and inviting to all.

Rules

1. An entry card must be attached to the exhibit with material appropriate to the exhibit: safety pins, tape, string, etc.
2. Projects must follow individual class guidelines and provide enough information to explain design intent using basic design vocabulary as described in pilot project materials.
3. Projects entered that do not follow specific class guidelines will not be judged.
4. In 2025, the Interior Design and Architecture Pilot Project was launched, which includes new classes and class descriptions. Because of this, we will not be accepting notebooks or furniture items in this division.

Interior Design Focus:

Interior Designers have a capacity to influence the way we feel when we inhabit a space. In some instances, this impact can be felt emotionally and physically, in other words, it can affect our mood. Tools such as color, light, texture, and pattern can all be used to convey or stimulate such a response to a space.

4400 – Interior Room Design Board. Select one room within your home or imaginary/future home (bedroom, bathroom, kitchen, etc.) to design.

Create a basic floor plan showing wall footprint including any furniture, fixture and/or cabinet layout. Include any other illustrations, drawings, or photographs to help support your design. Also include material/finish samples (wall treatments, floor covering, paint samples, etc.) Label drawings, material finishes and any additional information, so the audience understands their intention. All finishes should be attached to the presentation board along with budget information and design intent..

To explain your design intent, write a brief description to be included on the design board. (no more than one page 8.5" x 11").

Presentation boards must be foam core or a standard tri-fold display. Presentation board should be cut to size to fit all drawings, finish materials, images, and written materials so it's easily viewed without being oversized.

Workmanship, design layout and neatness should be taken into consideration when completing the presentation board.

4401 – Two Collages on Presentation Board. In this project, develop two imaginary interior rooms. Each room should start out with identical dimensions and features (doors, windows, etc.) The function of the room can be up to you (bedroom, coffee shop, art studio, etc.) but should be the same for both rooms. For each space, use collage to create a feeling or mood for the occupants of the space. The mood created for one space should be the opposite or contrast to the second space. Choose a pair of contrasting words from the list provided in the Pilot project materials are located on the Kansas 4-H website under “projects” and “Interior Design & Architecture”.

Each collage must be on its own page. Maximum page size preference and maximum is 11 x 17; can use smaller dimensions if needed. Collages should utilize layers to convey a space that includes a background, midground and foreground. Once these are established, add as many additional layers as needed. Use print materials from magazines, colored paper, the internet, or other design materials to find furniture, lighting fixtures, textures, and other elements to complete each collage. Don't worry too much about the functionality of the space but focus on materials and colors to create the mood of the space.

For each collage, write a brief description of your design intent. (one to three paragraphs total). Additionally, you may include research, inspiration imagery or any additional drawings that helped you design your space. Adhere to both collages and design intent on a foam core presentation board. Label each collage with the descriptive words you selected from the list.

Foamcore presentation board should be cut to size to fit all collages, images, and written material so it's easily viewed without being oversized.

Workmanship, design layout and neatness, and design strategy should be taken into consideration when completing your presentation board.

4402 – Two Diorama Models. Similar to class 4401, 4-H Members will construct two dioramas, one for each space demonstrating contrasting moods. Each diorama will be designed within similar sized boxes. Boxes should be large enough to be easily viewed but no larger than 12” length x 10” height x 8” depth. Both rooms being depicted need to be the same size. Manipulation to the box is allowed (cutting open such as windows, etc.)

Dioramas should use layers to convey a space which includes a background, midground and foreground. Once you have these established, you can add as many layers as needed. Use print materials from magazines, scrapbook paper, colored paper, the internet or other design materials to find items such as floor, ceiling or wall coverings, furniture, lighting fixtures, textures and other elements to complete each room or diorama. Elements will need to be cut out and adhered to a rigid material such as foamcore board or cardboard and securely placed inside the box to establish each background, midground and foreground to reflect the design of the room.

Don't worry too much about the function of the space, focus on materials and colors to create the mood of the space. Use openings in your container to experiment with the effect of light in your space.

Dioramas should not contain purchased toy figures, miniature furniture/cabinets, or moveable parts, but may include securely adhered 3-dimensional elements of the project member's own making. Elements should be adhered to materials easily found at home. For example: magazine photos, cardstock, plastic, cardboard, chipboard, or other material to depict design finishes/elements within the diorama.

Include small, foamcore presentation board with the set of dioramas that includes design intent for each diorama and any research or inspiration imagery used to complete the dioramas.

Workmanship, design layout and neatness, and design strategy should be taken into consideration when completing your dioramas.

Architecture Focus:

Architects plan, design and oversee the construction of buildings and other structures beginning with concept development to the final construction phase of projects. It's also important that they ensure the final product is safe and functional. Architects balance artistic creativity with sound building techniques while also considering how the built environment impacts people's emotions and lifestyle.

4403 – Marble Maze or Enclosure. Create a space in which a marble will move through a sequence of rooms, enclosures, or spaces. Use different types of elements and materials to enclose your spaces or guide the marble. Consider the size of the marble and how you want the space to feel – big and open or small and enclosed. Pay close attention to the sizes of architectural elements relative to the size of the marble.

To begin, identify a clear goal for the marble maze or enclosure. Use the glossary in the pilot project materials (located at www.Kansas4H.org under projects, then interior Design & Architecture) for design vocabulary to help support the goal.

To construct the marble maze or enclosure, use household materials found around the home to create the structure. (cardboard, chipboard, construction paper, paper towel or toilet paper tubes, etc.). Materials don't have to be boring,

but they should be functional. Don't be afraid to get creative with your construction materials when thinking of your overall goal and presentation.

No minimum size requirements for this project, but the base of the structure should be no larger than 18" x 24" (poster board size) and 12" in height.

In addition to your enclosure/maze, you may also present a small design board with illustrations/drawings to help the audience understand the path of travel for the marble, or the rules for which you designed.

Presentation board can be made from foam core or a small tri-fold display. Adhere illustrations, photos, or drawings to the board with any other information useful to the viewer including design intent and goals you set for the marble maze/enclosure.

Write or type a brief description of your design intent (1-3 paragraphs total) to be included on the design board.

Workmanship, design layout and neatness, and design strategy should be taken into consideration when completing your enclosure.

4404 – Marble Maze Presentation Board Only. Presentation board should be foamcore or tri-fold display with below items attached:

Include drawings of your marble enclosure/maze design; (examples include floor plan, section, elevations, etc.)

In addition to your base drawings, include any illustrations/drawings to help your audience understand the path of travel for the marble. You may also include quality photographs that show the sequence of the marble moving through the built design. Images may be annotated, meaning you can use notes to explain your thoughts/design intent, on the board. This sequence of photos should visually tell the story of your design.

Write or type a brief description of your design intent (1-3 paragraphs in total) to be included on the presentation board.

Workmanship, design layout and neatness, and design strategy should be taken into consideration when completing your design board.

4-H CREATIVE ARTS

4-H Photography

Conference Judging – Saturday before fair week by schedule beginning at 9 am - Sterl Hall

Superintendent..... Ashley Loucks

1. Read General 4-H Rules.
2. This department will be judged by conference method of pre-fair judging. Photographs must be exhibited at fair to receive ribbon and money premium.
3. Members are limited to 3 entries. Entries receiving purple ribbons may be eligible for the Kansas State Fair if exhibitor is at least 4-H age 9. Kansas State Fair exhibitors, first through seventh year in photography project, may enter one (only) photo print per exhibitor. Kansas State Fair exhibitors in the eighth (plus) year in the photography project may enter two prints if the prints are in different classes.
4. Black and white prints and color photographic prints and/or videos may be exhibited.
5. Photographs entered must be the result of the current year's project work. Photo images must be taken by the 4-H member (exhibitor).
6. Photographs taken with a digital camera are allowed no more adjustments than exposure, color intensity or correction, one click filter effects, red eye removal, cropping, dodging and burning, and HDR (high dynamic range). Please note: AI (artificial intelligence) modified images are not allowed.
7. Classes marked with asterisk (*) are ineligible for the Kansas State Fair competition.
8. The black and white classes are for black and white photos only. Monochromatic prints, including sepia prints are considered color photos and must be entered in the appropriate color photo class.
9. My Favorite 4-H Photography Display: This new class is only for those photography project members with 10 or more years of experience. This class is a non-judged mounted display consisting of four favorite photos from the member's photography career in 4-H. All photos and a fifth biography/description with details of why they are regarded as most significant will be mounted on white or cream studio matte board. Photos and biography/description will be displayed on one row of the photography racks. This class is an extra way to showcase the development and accomplishments of the 4-H member's photography career. Members can still enter other eligible classes.
10. The black and white classes are for black and white prints only. Monochromatic prints, including sepia prints, are considered color photos and must be entered in the appropriate color photo class.

11. Appropriate photo subject matter: Photographic subject matter is expected to follow 4-H standards. For a sense of prohibited subject matter, review the Kansas 4-H member Code of Conduct; in general, if it is not allowable at a 4-H event, it is not allowable in a 4-H photograph at the County or State Fair.
12. Photos with live subject(s) on railroad right of way or taken from railroad right of way property will not be displayed in Kansas 4-H Photography and will be DISQUALIFIED and Not Judged.
13. Copyright protections must be observed.
14. Definition:
 - Photo Story: A picture story consisting of three, four or five photos. No cropping, enlarging, or labeling of photographs allowed. Photo stories are to be mounted on photo mount oriented narrow side up as seen in item G. Multiple Boards may be used.

COUNTY PHOTOGRAPHY DISPLAY: 20 Photos will be selected for a county photography display; dates and locations of display will be announced. Selected photos will be held by superintendents after the fair.

SPECIAL AWARDS:

1. Top 20 4-H Photos – Rosettes – Faye Teetzen Memorial

STATE FAIR PHOTOS: Will be held by superintendents for submission to the Kansas State Fair, if proper documents are completed.

PHOTO MOUNTING AND DISPLAY INSTRUCTIONS

- A. Adhering photo to matte board: A full coverage permanent mount using a spray adhesive must be used. Do not use household glues, glue sticks, double stick tape/patches, etc. to adhere photo to matte board. Photos not mounted correctly will be lowered one ribbon placing after judging. Proper mounting is important for durability and display purposes. Educational video for proper mounting is available at www.kansas4-H.org on the photography project webpage.
- B. Mount photo on 11" x 12 1/2" photo mount, which may be purchased at the Extension office. (Board is always oriented narrow side up).
- C. Improperly mounted photos, oversize or undersize photos or photos with the white borders not removed or lettering (including dates) on the photo, will be awarded a ribbon one placing lower than the placing determined by the official judges.
- D. No lettering, names, addresses, descriptions or personal information pertaining to the photo or exhibitor should be written on the back of the photo matte board. The back of the photo matte board should remain blank.
- E. For 8" x 10"
 - a. Photos must be no larger than 8" x 10" and no smaller than 7" x 9" after trimming.
 - b. Remove white border from enlargement before mounting.
 - c. No underlays or borders permitted. Mount on photo mount with 11" dimension across and 12 1/2" dimension up and down with top edge of print 1" below the top of the board and the sides of the print equal distance from the sides of the mount. (Exception Photo Story - See definition).

Incorrect mounting cannot be displayed and will reduce ribbon by one placing and disqualify photo for State Fair.

- d. Cropping allowed.
- F. At time of judging, a two-part entry card shall be submitted with the photo, UNATTACHED, loose in the bag.
- G. It is required that each photo be displayed in clear bag available from the Extension Office. Do not seal the bag.

PHOTOGRAPHY

*839. Photo Story: For 4-H'er with 3 years or less in the project. A picture story consisting of three, four or five photos. No cropping, enlarging, or labeling of photographs allowed.

4800. Color photos taken by 4-H'er with 3 years or less in the project.

4801. Color photos taken by 4-H'er with 4 - 7 years in the project.

4802. Color photos taken by 4-H'er with 8 or more years in the project.

4803. Black and white photos – taken by a 4-H member with 3 years or less in the project (Black and white prints only)

4804. Black and white photos – taken by a 4-H member with 4-7 years in the project (Black and white prints only).

4805. Black and white photos – taken by a 4-H member with 8 or more years in the project (Black and white prints only).

4806 My Favorite 4-H Photography. This class is only for those photography project members with 10 or more years of experience. This class is a non-judged, mounted display consisting of four favorite photos from the member's photography career in 4-H. **All four photos will be mounted with a fifth mount reserved for a one page, printed or handwritten narrative/description that details each photo and why the exhibitor regards these photos as their most significant work.** Photos and narrative/description will be displayed on one row of the photography racks. This class provides an alternate way to showcase the development and accomplishments of the 4-H member's photography career. **Members who display in My Favorite 4-H Photography Display can still enter two other classes.**

PORTOFOLIO CLASSES

Please Note: Art Portfolio books for portfolio classes may be found at art supply stores, big box craft stores or online. They generally contain a black cover with clear pages to hold photos. Portfolio book pages should be 8 ½ x 11" in order to hold an 8 x 10 photo.

4807. Growth Portfolio

1. Members are eligible for this class beginning with the third year of enrollment in the 4-H photography project.
2. Exhibit will consist of one photo for each year of enrollment. Each photo must have been created in a different year and must be labeled with the year taken/project enrollment year. A maximum of 5 photos may be included if the member has 5 or more years of enrollment. Photos are not required to be in consecutive order. For example, a nine-year-old with three years enrollment in photography is eligible to enter a growth portfolio. The portfolio in this example should have one photo from the seven-year-olds year, one photo from the eight-year-olds year, and one photo from the nine-year-old's year. The growth portfolio class may start at any time in the member's photography career. For an older member, the growth portfolio would represent any five years in the project, for example, years 1,3,5,7 and 9 for a member having project enrollment totaling 9 years.
3. Photos must be 8"x10" and may be color or black and white and must be unmounted.
4. An information sheet must accompany each photo giving brand and model of camera used to create the photo. Setting for focal length, aperture, mode ad shutter speed must also be listed. The skills set used to create the photo must be given and fully explained. The main goal for each year should also be given. The form for this information is available on the Kansas4h.org website, is is a form fillable document and is required.
5. A short introduction of the photographer should be placed in the first page. This introduction should tell why the 4-H member enrolled in the Photography project and why they have continued to enroll. Exhibitor could also tell of a fun event photographed, a learning experience that taught them new skills or other related learning.
6. Beginning with photo 2 (two), member description of GROWTH in project must be included on information sheet.

7. Exhibit will consist of introductory page, skill sheet and photo from each year in chronological order and arranged in a portfolio book. Skill sheet will go in left hand page and unmounted photos in right hand page.

4808. Career Portfolio

1. Members must have been enrolled in Photography project for five (5) or more years OR member must be age 15-19 and been enrolled in Photography project for at least two (2) years.
2. Exhibit will consist of ten (10) 8x10 photos showing skill development in one of the following photography areas: Portraiture, Special Effects (not done with computer), Landscape, Photojournalism, Black and White, Nature/Wildlife or Graphic Design (computer skills with photos). All photos must be the result of the current 4-H enrollment year.
3. Photos may be color except if Black and White option is chosen and must be unmounted.
4. An information sheet must accompany each photo giving brand and model of camera used to create the photo. The settings for focal length, aperture, mode, and shutter speed must also be listed. This sheet may be downloaded from the Kansas4h.org; it is a form fillable document and is required.
5. A one-page summary should accompany the portfolio listing the goal for pursuing this area of photography and what skills were learned while doing so. Mentors should be acknowledged. Career exploration can also be described.
6. Exhibit will be presented in a notebook designed for portfolio review with pages for required information from #4 and #5.

4-H Visual Arts

Conference Judging – Saturday before fair week by schedule beginning at 9 a.m., Sterl Hall

Superintendent Leah Hern

Assistant Superintendent Lynne Murphy, Michele Livingston

1. Read General 4-H Rules.
2. Pre-entry due by deadline at ckff.fairentry.com
3. 4-H members enrolled in Visual Arts may exhibit a maximum of three (3) entries (a set is considered one entry.) Each article MUST represent a different art skill, medium, technique, or which may include a report, poster (no larger than 3'x4' trifold) or other display showing art forms explored.
4. All entries will be judged by CONFERENCE METHOD PRE-FAIR JUDGING. Craft articles must be left after judging to be exhibited at the fair to receive ribbon and money premium.
5. One item from each of the five visual arts categories from exhibitors 4-H age 9 and up may be selected for display at the Kansas State Fair. Judges will select one item for exhibit at the Kansas State Fair in each of the five classes from purple ribbon entries of those 4-H age 9 and up in each class.
6. All artwork must be matted or framed and have wire or saw tooth hanger for display purposes.
7. Not responsible for any exhibits that may be lost, broken, or stolen while on display.
8. Articles exhibited must be an original design created by the exhibitor.
9. Visual Arts Definitions/Explanations:

Two-Dimensional Art is described as a form of visual art that exists on a flat surface and has width and height but no depth. Examples include drawings, paintings, prints, photography and can be created with charcoal, ink, watercolor, pencil, paint, etc.

Three-Dimensional Art is described as a form of art that has height, width, and depth and can be viewed from multiple angles. 3D art takes up physical space. Examples include clay molding, glass blowing, sculpture, casting, modeling, carving, and construction.

Explanation of the term “kit” – Any art project that comes pre-packaged or boxed as a “kit” is not an allowable project. While utilizing kits can help build skills, the work needs to be original to the 4-H member. Examples include paint by number, diamond art kits, string art, etc. Exception: Leather project kits, due to the nature of pre-cut leather, are allowed.

Explanation of “original art” -

- If a 4-H member creates their own pattern or art project that contains paint, diamond art beads, string art or any other medium, then it becomes their own work and in turn can evolve into an allowable project.
- Combining parts of different patterns (pictures, photographs, images from the internet or magazine) with the member's own ideas can result in an original design.
- Changing only the color, pattern, or size does not make the design original.
- If a photo, sketch or other idea source was used, or a new pattern was created by the 4-H member please submit it with the judging rubric.

- The design process for original art by the 4-H member must be explained in the judging rubric.

Painted craft versus glazed pottery – When a 4-H member uses acrylic paint on pre-made ceramic pieces it is considered a painted craft. When a 4-H member applies glaze to greenware and the pieces are fired, that is considered pottery/ceramics and fine art.

VISUAL ARTS

4501. Fine Arts Oil, chalk, charcoal, dyes, pastels, pencil, ink, acrylic, or watercolor on canvas, canvas board, paper, wood, metal, or textiles, framed as a picture, prepared for hanging. Stretched canvas art on a wooden frame is considered prepared for hanging provided that frame has a hanger.

4502. Clay and Ceramics Any original item made of clay; may be fired or unfired, hand formed, or thrown on a wheel. Self-hardening, fire/oven-cured, and/or cornstarch clays are acceptable. Items can include, but are not limited to, clay statues, bowls, etc.

4503. Leather and Jewelry Any leather stamping, carving, tooling, lacing, or stitching piece or any jewelry piece made from any medium are acceptable exhibits. . Leather project kits are acceptable due to leather being precut for particular projects. If a 4-H member makes their own leather pattern that should be explained in the rubric and the pattern included.

4504. Three-Dimensional The piece must be observable on at least three sides and should be either free-standing or prepared to be hung. Craft and pre-formed or assembled projects are not acceptable.

4505. General Crafts This category incorporates miscellaneous pieces that do not correspond to the four above-mentioned categories.

*4506 Item made using a kit (Not State Fair Eligible)

4-H ENGINEERING & TECHNOLOGY

Conference Judging – Saturday before fair week by schedule beginning at 9 a.m., Sterl Hall

Superintendent Jon Norton

Assistant Superintendent.....Augustus Anders

1. Read General 4-H Rules.
2. STEM exhibits must be left after judging to be exhibited at the fair to receive ribbon and money premium.

4-H Astronomy

1. Telescopes entered in this division may be built from a kit or by original design. Radio telescopes are acceptable entries in this category. Pre-finished telescopes which require no construction are not acceptable exhibits.
2. Telescopes are limited to no more than six feet in length. They must be placed on a stationery stand that does not allow the telescope to roll and/or fall over. The stand cannot extend past two feet in length or width.
3. Each telescope exhibit must include a “4-H Astronomy Exhibit Information Form,” which is available through your local K-State Extension Office or at <https://www.engtech4ks.com/astronomy/>. This form must be attached to the outside of a 10” x 13” manila envelope. You must also include construction plans (or a photocopy) of the telescope and place it inside the manila envelope.
4. At least two photographs showing telescope construction and operation are required. Photographs should be mounted on one side of an 8 ½” x 11” page. A brief caption should accompany each photograph. Place photos in the 10” x 13” manila envelope. Up to 10 pages of pictures can be included.
5. The telescope must be properly assembled and painted with a smooth and uniform finish. Decals, if used, should be attached smooth and tight.
6. Telescopes designed by the exhibitor must be original, not a modification of an existing kit.
7. Exhibitor’s name (or ID), county or district, age, and year(s) in project must be tagged or labeled on the telescope stand, educational display, notebook, and/or poster.
8. If a safety violation is noted by judges, superintendent, or other staff, the exhibitor’s exhibit, at the judge’s discretion, may receive a reduced ribbon placement or disqualification.
9. NEW – Videos for the Kansas State Fair may be uploaded to a video sharing site, such as YouTube, instead of being placed on the USB drive. The video should be set as “private”, so only those with the link are able

to view it. The link should be written on the video form for judges to review. Capitalization in URLs matter, incorrect URLs may result in a ribbon place deduction.

Astronomy

5500. Telescope made from kit

5501. Telescope made from original design

4-H Computer Science

1. The 4-H Computer Science project teaches concepts related to computers, hardware knowledge, software programming and applications, internet safety, the building, maintenance and repair of computers and future career opportunities. Please note that the actual construction of computer hardware (i.e., building a computer, electronic devices with a motherboard-based manipulation) will remain in the Energy Management division.
2. 4-H members must be currently enrolled in the 4-H Computer Science project to exhibit in this division.
3. Each exhibitor may enter one exhibit per class.
4. Exhibitor's name, club, 4H age, and years(s) in project must be tagged or labeled in a prominent location on the exhibit, educational display, notebook, and/or poster.
5. See the last section for full details about exhibiting posters, display boards and notebooks.
6. The actual construction of computer hardware (For example, building a computer, which would include computer components plugged into a motherboard, discrete circuitry soldered on a printed circuit board, or wire-wrapped circuitry) will be entered in the Electronics Division., except for exhibits entered in Class 5594.
7. If a safety violation is noted by judges, superintendent, or other staff, the exhibitor's exhibit, at the judge's discretion may receive a reduced ribbon placement or disqualification. A safety violation could include Malware, a virus, or any similar program that potentially is harmful.

The Kansas 4-H Computer Science portion of the computer project is designed to allow 4-H members to explore how *information* is moved from one part of the computer to the other; how *information* is moved between two or more computer systems (networking); how *information* is stored; or how *information* is acted on (programming).

1. All exhibits in the Computer Science division must be entered on a USB drive containing all supporting documents as listed below for each class.
 - a. The USB drive should be included in a manilla envelope with the Computer Exhibit Form (found at <https://computers.engtech4ks.com> or your local extension office) attached to the front.
 - b. The USB drive should be labeled with the 4-H member's name or ID and county.
2. Source code must be included on the USB drive for all computer programming projects coded by the 4-H member. This could include a .txt file, python Script (.py), Scratch URL, etc. Failure to include the source code will result in one ribbon deduction.
3. Each exhibit must include written operating instructions including how to locate, run, and use the project. Operating instructions should be printed and placed in the manilla envelope and included digitally on the USB drive.
4. Each exhibit must be accompanied by a typed requirements document included on the USB drive. See <https://computers.engtech4ks.com> for a template that can be used for documenting requirements.
 - a. The requirements document should be started at the beginning of the project. It will include a list of goals and requirements that the 4-H member wants to include or achieve in their final project.
 - b. The project requirements section is formatted as a checklist, with the 4-Her checking off what they accomplished, making adjustments throughout their work on the project as needed.
 - c. Flow charts, designs, or other diagrams may be included for computer programs to show the logical flow of the program as needed.
5. For coded computer programs, screenshots of the program will be displayed digitally at the state fair. A display screenshot must be included electronically on the USB drive. For county fairs, it is recommended to print screenshots for display at fairs that don't have electronic displays available.
6. All electric components of micro controlled devices must be adequately covered or concealed with a protective enclosure, specifically circuit board. Paper is NOT considered an adequate enclosure or covering for electrical components.

7. Judge in the computer system division will have a physical computer with the following minimum configuration to test exhibits with and view files:
 - a. Microsoft Windows® 11
 - b. Microsoft Office® 365 (Excel, Power Point, & Word)
 - c. Microsoft Visual Studio®
 - d. Microsoft Edge Browser®
 - e. Mozilla Firefox® Browser
 - f. Google Chrome® Browser
 - g. Adobe Acrobat Reader®
 - h. Apache Open Office®
 - i. Scratch Desktop editor (offline version)
8. Judging of micro controlled devices is based on the code, not the hardware.
9. Judging will be based on a score sheet that can be found at <http://computers.engtech4ks.com/>.
10. There are three (3) areas each exhibit will be judged on. They are:
 - a. Requirements document
 - b. Operating Instructions
 - c. Functionality (how well did the project meet project objectives)

Computer Systems

5590. Computer program, application, app, script, or coded system that is new and unique (not merely a file run in a program, such as a “Word document” or a picture drawn in “Microsoft Paint”).

5591. Coded website built entirely by the 4-H Member (not using a pre-made template generator such as Wix or Squarespace). Items in this class could be coded in HTML, CSS, Javascript, Wordpress, or other web-based programming languages or platforms.

5594. Microcontroller or microcomputer application - a small circuit board that is programmed to accomplish a specific task (projects built and programmed using Raspberry Pi, Arduino, etc.)

4-H Robotics

1. Each exhibitor is required to complete the “4-H Robotics Exhibit Information Form” which is available through your K-State Extension office or at <https://robotics.engtech4ks.com>
2. This form must be attached to the outside of a 10” x 13” manila envelope. All revisions of all forms previously released for the Engineering and Technology division either undated or dated prior to current year are void for use and new forms must be obtained and used that are dated by the State 4-H office for the current year. Use of old forms should result in the loss of one ribbon placing for exhibits.
3. Each exhibitor may enter one robot per class. Exhibit must have been constructed and/or completed during the current 4-H year.
4. Each exhibit must include a robot, information packets are not a sufficient exhibit.
5. Robots must have automated (electric, pneumatic, hydraulic, etc.) articulated structures (arms, wheels, grippers, pneumatic, hydraulic, etc.). Game consoles that display on a screen are not considered robots and should either be entered in electronics and renewable energy division. Robots requiring no assembly, just programming, such as Ozbots, are considered computer sciences projects as the skill is focused on programming not on the construction of the robot.
6. Robot dimensions should not exceed 2 feet high, by 2 feet wide, by 2 feet deep. If displayed in a case (not required) the outside case dimensions should not be excessive. The display case should have the exhibitor’s information attached to both the base and cover, as the top part (lid) of the case may be separated from the display.
7. Materials including but not limited to USB drives, obstacles, spare batteries, and mats for testing the robot may be placed in a separate container, which is not included in the robot’s dimensions. That container may not be larger than 276 cubic inches as measured along the outside of the container. (Example: 4”x4”x36” or 4”x8”x16” or 6”x6”x16”). The container, if used, and/or any large objects such as mats or obstacles should be labeled with the exhibitor’s name(s) or ID’s, county and if applicable, district as they will be stored separately from the exhibit.
8. All electric components of the robot must be adequately covered or concealed with a protective enclosure, specifically circuit boards. Paper is NOT considered an adequate enclosure or covering for electrical components.

9. Robots may be powered by battery, water, air, elastic energy devices (rubber bands, balloons, etc.) or solar source only. Junk drawer robots may be powered by a non-traditional power source. Robots powered by fossil fuels/flammable liquids will be disqualified. Robots that include weaponry of any kind will be disqualified. Weaponry is defined as any instrument, possession, or creation, physical and/or electrical that could be used to inflict damage and/or harm to individuals, animal life, and/or property.
10. Remote controlled robots are allowed under certain conditions provided that the robot is not drivable. Robots programmed on phones/tablets need to have a specific program created, using motion controls to move the robot are not acceptable, for example “press forward on the screen to make the robot go forward.” A remote is allowed, provided more than a single action happens when a single button is pressed on the remote. For example, “a motor spins for 3 seconds, at which point an actuator is triggered, then the motor spins for 3 more seconds.” Remote controlled cars, boats, planes and/or action figures, etc. are not allowed.
 - a. Robotic arms and hand extensions (hydraulic, mechanical, or electrical) are allowed.
11. Each robot must be in working condition. The judges will operate each robot to evaluate its workmanship and its ability to complete its intended task. In the event that the robot uses a phone, tablet, or similar device for programming AND control of the robot a video will be used to evaluate the working condition of the robot. The video should follow the instructions provided for operation so that the judge can follow along with the provided instructions.
12. The exhibit must include written instructions for operation (instructions should be written in clear, simple, step-by-step language so that someone with no prior experience could successfully operate the robot.), construction plans (do not need to be printed), and one to five pages of project photographs are required for all robotic exhibits. This information should be placed inside the 10” x 13” manila envelope mentioned above. Robot programming information can be, but not limited to, source code, block diagrams, screen captures of the coding window, and other images that show the programming logic used. The exhibitor may enter their robotics project in either robotics or listed under the electric and renewable energy project if the exhibitor so chooses, but not both.
13. If the robot uses a device like a phone, iPad, or tablet for programming AND operation, DO NOT include the device (phone, tablet, etc.). The device’s safety cannot be ensured. Instead, record a video demonstrating the instructions included for your robot as described above. It should show setting up the robot, starting the robot, the robot executing its task, and powering off the robot, just like how the instructions are written.
14. Creativity, workmanship, and functionality will be strong criteria in judging the “Robot designed by Exhibitor” classes. All robots should have a purpose or intended function, examples include, but are not limited to: following a line, sweeping the floor, solving a Rubix Cube, sorting colors, or climbing stairs.
15. Exhibitor’s name(s) or ID’s and county must be tagged or labeled in a prominent location on the robot.
16. There are no county or district boundaries that must be adhered to in order to form a Kansas 4-H Engineering & Technology Robotics team. However, as mentioned in the general rules, each team member must be enrolled in the Kansas 4-H Robotics Engineering & Technology project.
17. See the last section for full details about exhibiting posters, display boards and notebooks.
18. If a safety violation is noted by judges, superintendent, or other staff, the exhibitor’s exhibit, at the judge’s discretion, will receive a participation ribbon.

ROBOTICS

Novice – 4-H Ages 7-8

- *5505. Robot made from a commercial (purchased) kit
- *5506. Robot designed and constructed by exhibitor. The robot must not be a mere modification of an existing robot kit or plan
- *5507. Programmable robot made from a commercial (purchased) kit
- *5519. Robot designed and constructed by exhibitor, that is operated by a remote-controlled device
- *5543. Junk Drawer Robotics

Intermediate – 4-H Ages 9 - 13

- 5509. Robot made from a commercial (purchased) kit (no programming, just assembly)
- 5510. Robot designed by exhibitor. The robot must not be a mere modification of an existing robot kit or plan
- 5511. Programmable robot made from a commercial (purchased) kit
- 5546. Robot designed and constructed by exhibitor, that is operated by a remote-controlled device
- 5544. Junk Drawer Robotics

Senior – 4-H Ages 14 and over

5513. Robot made from a commercial (purchased) kit (no programming, just assembly)

5514. Robot designed by exhibitor. The robot must not be a mere modification of an existing robot kit or plan

5515. Programmable robot made from a commercial (purchased) kit

5547. Robot designed and constructed by exhibitor, that is operated by a remote-controlled device

5545. Junk Drawer Robotics

Team

5517. Robot designed and constructed by two or more 4-H STEM project members. The robot must not be a mere modification of an existing robot kit or plan. The robot may be a programmable type that is made from a commercial (purchased) kit. This division is designed to encourage teamwork and cooperation among fellow 4-H STEM members. As with many high-tech projects today, no one person designs and builds a robot alone. It takes the brainstorming, planning, problem solving, and cooperation of an entire team to complete a given robotics project.

4-H Aerospace/Rocketry

1. If a rocket qualifies for the Kansas State Fair, exhibitors should read the State Fair Rules for the Rocketry division as they may be different from those at the county fair. Be sure to check class numbers, as they may be different.
2. Each exhibitor may enter up to two rocket exhibits that have been constructed during the current year. If two rockets are entered, one rocket must be a “model rocket kit”, the second may be entered into any other applicable class. An exhibitor may not enter two rockets in the same class.
3. 4-H members are to complete and sign the rocketry information form, available from <http://rocketry.engtech4ks.com/> or your local extension office and attach it to 10” by 13” manilla envelope. The envelope should contain:
 - a. Instructions on how to construct the rocket
 - b. Up to 5 pages of pictures, pictures are to be attached to sheets of paper, from both constructions and launch
 - c. Documentation of any flight damage that occurred
 - d. Any modifications made to the rockets except for paint scheme and decals
 - e. If needed, an additional page for altitude calculations if the space on the form is not enough.
 - f. Additionally, for original design rockets, also known as “scratch built” rockets
 - i. 5 additional pages of photos are allowed
 - ii. Documentation on how the rocket was tested for stability
4. New exhibits should not contain any perishable items, such as eggs.
5. If a safety violation is noted by the judges, superintendent, or other staff, the exhibitor’s rocket, at the judges’ discretion, may receive a participation ribbon.
6. Rockets are to be displayed upright on a display stand with a sturdy rod that does not extend past the top of the rocket or stand unassisted, unless the rocket is taller than 4 feet in which case no display stand is required, at which point the rocket may be displayed on its side. Rockets are not to be displayed on launch pads to save space and prevent someone from being poked in the eye.
7. Rockets ARE NOT to be displayed with used or unused rocket engines either in the rocket or as part of the stand, if rocket engines are included in the exhibit the judge may disqualify the exhibit.
8. Rockets should be flown unless there is an active burn ban in the county or conditions are too dangerous to safely launch the rocket. Just flying the last stage (the part with the nose cone) of a multi-stage rocket is acceptable.
9. All rockets, except those in the JR division, are not to be “beginner’s kits” or use prefabricated (molded plastic) fin assemblies or pre-finished rockets requiring no painting. These are only acceptable in the JR division at the county fair. Rockets of this type outside the JR division should be disqualified. Rockets entered in the JR division **may not** go on to the Kansas State Fair.
10. Angles of fins must fall within a plus or minus 2-degree variation using an approved fin alignment guide (such as KSSTAC10). An official fin guide is available from <http://rocketry.engtech4ks.com/>.
11. Fins and body tubes, except ‘beginners kits’ are to be filled and sealed with putty, sanding sealer and/or primer or other suitable filler to eliminate the appearance of body grooves and wood grain.
12. Fins and launch lugs are to be filleted to reduce drag and properly secure them to the model.
13. Engine mounts are to be securely attached to the body tube.
14. Any seams on plastic parts are to be sanded smooth.

15. The recovery system (typically a parachute or streamer) should be attached according to the instructions
16. The nose cone is to fit snugly but still allow for easy removal.
17. Exhibits must be uniformly painted and smoothly finished without “runs,” “orange peel,” or “alligator skin” or finished as per rocket instructions (for example, no painting required), and decals, if used, are to be applied smoothly.
18. Models may not be judged based on their paint scheme (colors and placement on the rocket), except for rockets that fit the definition of a ‘scale model*.’ and are entered in the scale model class. Rockets do not have to follow the suggested paint scheme, allowing the 4-H’er to display maximum creativity in the finishing of their rocket. Under no circumstances is the weight given to the paint scheme to be sufficient enough, by itself, to move the non-scale model from one ribbon placing to another.
19. “Scale Models*” entered in the scale model class may be judged based on their paint scheme. The judge may deduct up to one ribbon placing for not following the paint scheme in this class.
20. “Scale Models*” displayed in the scale model class are to be finished and completed with a majority (greater than 70%) of decals. For all other rockets the use of decals are optional.

(The following rules (21-32) apply to advanced exhibits).

21. Original design rockets cannot be a modification of a pre-existing kit and must be of original design.
22. Original design rockets must be designed by the exhibitor(s).
23. Exhibitor(s) must be 11 years of age (4-H age) or older to enter an original design rocket.
24. Original design rockets must include detailed instructions, so that someone could construct the original designed rocket just like a kit purchased at a store. Instructions can be as many pages as needed to convey full and complete construction techniques, including fin templates.
25. For a rocket entered in the original design classes, describe in the summary how the rocket was tested for stability prior to flying. Swing testing of the rocket is required. Other tests and calculations are strongly encouraged. Exhibitors must include documentation of the swing test. Failure to swing test a rocket will result in a deduction of TWO ribbon placings.
26. Rockets that use more than one ‘D’ engine or equivalent are considered mid or high-power rockets in 4-H.
27. Mid and High-Power exhibitors must be at least 14 years of age by January 1 of the current year. This is to align with NAR certification guidelines.
28. In addition to the information packet completed for all rockets, a high-power information form is to be completed and placed inside of the information packet. This may be downloaded from <http://rocketry.engtech4ks.com/>
29. Exhibitors in the mid and high-power divisions must hold memberships in either NAR or Tripoli organizations.
30. The NAR High Power Rocket Safety Code applies to the construction and launching of all rockets displayed in this division. As such all mid and high-power rocketry exhibitors must comply with the NAR High Power Rocket Safety Code that is in effect as of October 1st of the current 4-H year.
31. All rockets in the mid and high-power divisions are to be launched under adult supervision by the 4-H member who constructed the rocket.
32. For rockets launched using engine(s) that have 160.1 (‘H’ engine or equivalent amount of smaller engines) Newton’s-seconds of thrust or larger, adult supervision must be provided by an individual having at least a level 1 high power certification. The 4-H member should also hold or be attempting to attain their level 1 high power certification if launching on this large of an engine.
33. NEW – videos may be uploaded to a video sharing site, such as YouTube, instead of being placed on the USB drive. The video should be set to “private” so only those with the link are able to view it. The link should be written on the video form for the judges to review. Capitalization in URLs matter, incorrect URLs may result in a ribbon place deduction.
34. * with a class number indicates a class not eligible for Kansas State Fair.

*** As defined by the National Association of Rocketry (NAR), a scale model is “any model rocket that is a true scale model of an existing or historical guided missile, rocket vehicle, or space vehicle, that has flown under rocket power.” The intent of scale modeling, according to the NAR, “is to produce an accurate, flying replica of a real rocket powered vehicle that is judged for craftsmanship in construction, finish, and flight performance.” (NAR “Model Rocket Sporting Code” 52.1 <https://www.nar.org/USModelRocketSportingCode>)**

ROCKETRY

Division JR - Exhibitors 7 and 8 years old

*5520a Rocket made from kit, without pre-assembled fin units. Include plans.

*5520b Rocket made from “beginners kit.” Include plans. Rockets in this class may have pre-assembled fin units (plastic). (This class is for first and second year 4-H members to explore the rocketry project.)
5537a Scale Model Rocket made from kit. Include plans.

Division A - Kit Exhibitors 9 through 13 years old

5520 Rocket made from kit. Include plans.
5537 Scale Model Rocket made from kit. Include plans.

Division B - Scratch Built Exhibitors 11 through 13 years old (9 and 10-year-olds may not enter in this class)

5521 Rocket designed by exhibitor: not merely a modification of an existing kit. Include original plans.
5538 Scale Model Rocket designed by exhibitor: not merely a modification of an existing kit. Include original plans and stability testing.

Division C - Exhibitors 14 years and older

5525 Rocket made from kit. Include plans.
5526 Rocket designed by exhibitor: not merely a modification of an existing kit. Include original plans.
5539 Scale Model Rocket made from kit. Include plans.
5540 Scale Model Rocket designed by exhibitor: not merely a modification of an existing kit. Include original plans and stability testing.

Division D - Exhibitors 11 years and older

This class is designed to encourage teamwork among individuals and clubs to work on a rocket from the initial design to the finished product.
5530 Rocket designed by 2 or more exhibitors: not merely a modification of an existing kit. Include original plans.

Division E - Exhibitors 14 years and older

5536 Mid or high-power rocket made from kit or original design.

Division F – Exhibitors 14 years and older

5535 High power rocket made from kit (14 years and older)

SPECIAL AWARDS

1. Best 1st Year Rocket – James & Sue Ruhnke, in memory of Carl Ruhnke

4-H Uncrewed Aircraft Systems

Purpose: The 4-H uncrewed aircraft systems or UAS project explores the world from above the trees and discovers new frontiers with UASs. UASs are commonly known as Uncrewed Aerial Vehicles (UAVs) or drones. Members explore the operation and applications of Uncrewed aircraft systems including how UASs link to other projects such as geology, robotics, electronics, crop science and many others.

1. The 4-H members must be currently enrolled in the 4-H Uncrewed Aerial Systems (UAS) project to exhibit in this division.
2. Each exhibitor may enter one exhibit per class. Exhibit must have been completed during the current 4-H year.
3. The information that accompanies the UAS must be limited to the 4-H Engineering & Technology Exhibit Information Form which is affixed to a 10” x 13” envelope. This envelope should NOT be attached to the UAS. This may be downloaded from <http://uas.engtech4ks.com/>. Any UAS exhibit not including this completed envelope will receive a participation ribbon. All revisions of forms previously released for the division dated prior to current year are void for use and new forms must be obtained and used that are dated by the Kansas State 4-H Office for the current year.
4. The exhibitor’s name (or exhibitor number), county or district, age, and years(s) in project must be tagged or labeled on the exhibit, educational display, notebook, and/or poster.
5. Uncrewed Aircraft Systems that include or depict weaponry of any kind will be disqualified.
6. See the engineering & technological educational exhibits section for full details about exhibiting posters, display boards and notebooks.

7. For scratch built UAS kits, if modifications are made to the exhibit a page should be attached noting those modifications.
8. If a safety violation is noted by the judges, superintendent, or other staff, the exhibit, at the judge's discretion, may receive a reduced ribbon placement or disqualification.
9. For exhibits "designed and constructed by the exhibitor" the UAS must not be a mere modification of an existing kit or plan. You may not exhibit a UAS that is purchased off the shelf in this class.
10. For "practical application" entries, the UAS is not required to be displayed as part of the exhibit, only the supporting material illustrating the application.
11. The same UAS may be used by multiple exhibitors for different practical application entries.

Junior, 4-H age 7-8 years old

*5701a. Uncrewed Aerial System designed and constructed by exhibitor that is operated by a remote-controlled device. The UAS must not be a mere modification of an existing kit or plan. You may not exhibit a UAS that is purchased off the shelf in this class.

*5702a. Practical application of an Uncrewed Aerial System constructed from a commercial (purchased) kit. This includes the UAS, plus one or more of the following: video, notebook, poster, display board, etc. This class is separate from the educational exhibits. A tangible use would be mapping Russian olive trees, eroded soils, and bindweed in fields, etc. There are also many other non-agricultural UAS uses that would be appropriate for this class.

Intermediate, 4-H age 9-13 years old

5701. Uncrewed Aircraft System designed and constructed by the exhibitor that is operated by a remote-controlled device. The UAS must not be a mere modification of an existing kit or plan. You may not exhibit a UAS that is purchased off the shelf in this class.

5702. Practical application of an Uncrewed Aircraft System constructed from a commercial (purchased) kit. This includes the UAS, plus one or more of the following: video, notebook, poster, display board, etc. This class is separate from the educational exhibits. A tangible use would be mapping Russian olive trees, eroded soils, bindweed in fields, etc. There are also many other non-agricultural UAS uses that would be appropriate for this class.

Senior, 4-H age 14 years and older

5706. Uncrewed Aircraft System designed and constructed by the exhibitor that is operated by a remote-controlled device. The UAS must not be a mere modification of an existing kit or plan. You may not exhibit a UAS that is purchased off the shelf in this class.

5707. Practical application of an Uncrewed Aircraft System constructed from a commercial (purchased) kit. This includes the UAS, plus one or more of the following: video, notebook, poster, display board, etc. This class is separate from the educational exhibits. A tangible use would be mapping Russian olive trees, eroded soils, bindweed in fields, etc. There are also many other non-agricultural UAS uses that would be appropriate for this class.

4-H Engineering and Technology Educational Exhibits

Purpose: To allow 4-Hers to explore science, engineering, and technology outside the bounds of traditional projects for ag mechanics welding, building block engineering, rocketry, robotics, astronomy, computers, and uncrewed aerial systems. All posters, notebooks and display boards are listed in this section and have been removed from the individual sections to save space.

1. The General Exhibit rules for ALL Engineering and Technology categories apply.
2. For notebooks, display boards, and posters, no additional exhibit information is required; no manila envelope is needed for these exhibits.
3. Exhibits are to have a **clear link to the Engineering and Technology** areas of astronomy, computers, rocketry, robotics or uncrewed aircraft systems, educational exhibits outside of these Engineering and Technology areas should be displayed in the other program areas. Just because an educational exhibit relates to the broad concept of Engineering and Technology does not qualify it to be displayed in the Engineering and Technology Educational Exhibit area. Exhibits that do not clearly show a clear and direct relationship to the Engineering and Technology project areas of ag-mechanics, ABC, astronomy, computers, robotics, rocketry, or UAS as previously defined will be disqualified.

4. Exhibits in posters, notebooks and display boards must contain substantial supporting educational materials.
5. Educational display boards, posters, and notebooks should be creative and showcase details about the knowledge learned in the project during the current 4-H year. Value is placed on youth who can demonstrate how their skills have increased while completing the project. Each exhibit will be judged on uniqueness, creativity, neatness, accuracy of material, knowledge gained, and content. An exhibit judging score sheet is available at <http://rocketry.engtech4ks.com>. For example, a rocket that may have crashed and/or is highly damaged may be made into an educational display or poster that tells a great story with many lessons learned.
6. Follow copyright laws, citing all sources of information in a standard notation. Sources of information must be cited on the front of your exhibit, including all posters and educational display boards. Example citation: "Make a Star Finder" <https://spaceplace.nasa.gov/starfinder/en/>
7. Educational displays are not to exceed 4' high x 3' wide x 2' deep. No card table exhibits will be allowed. No card table exhibits will be allowed. Care should be taken to use durable materials that will withstand fair conditions.
8. Posters are limited to commercial 3' x 4' tri-fold display boards.
9. "Construction Kits" that are part of educational displays must be contained in cases (tackle boxes, sealable containers, etc.) that may not be larger than 2' X 2' X 2' and must have a latch which securely keeps all components contained in the "Construction Kits". Other components are to adhere to appropriate dimensions as stated elsewhere.
10. Educational Project notebooks must be organized in a 3-ring binder or similar book.
11. Any three-dimensional poster or display board exhibits may not be thicker than 2 inches.
12. Engines and igniters for rockets ARE NOT permitted with the exhibit and constitute an immediate disqualification. This is for safety reasons and includes both spent and live engines.
13. The exhibitor's name (or ID), county, if applicable district, age, and year(s) in project must be tagged or labeled on the exhibit. Exhibit cards are not sufficient as they may be removed or repositioned for display. Failure to label an exhibit may result in one ribbon placing deduction.
14. Exhibits should possess the following qualities (in no particular order):
 - a. A central theme
 - b. What you want others to learn
 - c. Be designed and constructed in a manner befitting the exhibit
 - d. Be something you are interested in
15. If a safety violation is noted by the judges, superintendent, or other staff, the exhibitor's exhibit, at the judge's discretion, may receive a reduced ribbon placing or disqualification.

4-H Ag Mechanics Welding

This project allows youth to explore areas of ag mechanics welding and metallurgy from repairing or repurposing existing items to fabricating new ones. The intent is for this program start with foundational areas, some of which youth may already have, and allow them to continue to build on this knowledge becoming more experienced.

1. Wheeled exhibits must utilize a breaking mechanism which prevents the exhibit from freely rolling while on display.
2. Exhibitors are responsible for providing sufficient braking or “chocks” for trailer or wheeled exhibits to ensure that the exhibits do not move once positioned. If using a wheel “chocking” mechanism, the two individual blocks should be connected together as a pair of chocks, so they do not become separated. At least one pair of chocks should be placed on each side of the trailer to prevent movement.
3. Each exhibit must be free-standing or sufficiently supported by an exhibitor supplied support system that is moveable and is part of the total dimensions and weight of the exhibit. Exhibit display boards should have a portable and moveable base and examples should be firmly affixed to the board to ensure all parts of the display stay together. No exhibits may be staked to the ground for display.
4. For trailer exhibits, the tongue of the trailer should be equipped with a locking mechanism (i.e. padlock) to prevent the trailer from being moved by unauthorized individuals while on display. A key for the locking mechanism should be left with the superintendent and label with the exhibitor’s name, county, and phone number.
5. Exhibits with downward swinging parts, such as tailgates, that could pose a fall/striking/crushing hazard should have a tamper resistant locking mechanism such as a “zip-tie” or a “cotter-key” through a release pin that would prevent the swinging part from being accidentally released and falling on someone.
6. Top heavy items should be braced or placed in a stand sufficient to prevent them from toppling over while on display.
7. No sealed vessels are allowed. All vessels must be properly vented, for example, a water tank with a fill cap, or a drilled hole for empty chambers that allows pressure to equalize. Exhibits not properly vented will be disqualified.
8. Tanks are to be triple rinsed, dried and free of all liquid residue.
9. As exhibitors build their exhibits, appropriate PPE (Personal Protection Equipment) is required.
10. Painting or spot painting is not allowed on projects after arrival on fairgrounds. If wet paint is detected by judges or superintendents one ribbon placing will be deducted.
11. Repair projects having adequate original finish need not be repainted.
12. Cutting surfaces, such as blades or knives, are to have a protective covering over them to prevent injury. The covering should be easily removed and reinstalled for judging. Foam “pool noodles” and multiple layers of cardboard are acceptable.
13. Display cases for small exhibits are acceptable and must be easily opened so the item can be removed and examined as part of judging.
14. Exhibits that include weaponry of any kind will be disqualified. Weaponry is defined as any instrument, possession, or creation, physical and/or electrical that is intended to be used to inflict damage and/or harm to individuals, animal life, and/or property.

15. If the exhibit is powered by flammable liquids (gas, propane, kerosene, etc.) the fuel tank and fuel system should be drained and allowed to dry, to avoid spills and potential fires.
16. Electric powered (battery, corded, solar, or alternative energy) exhibits should have a primary shutoff or disconnect switch.
17. If a safety violation is noted by the judges, superintendent, or other staff, the exhibitor's exhibit, at the judge's discretion, may receive a reduced ribbon placement or disqualification.
18. The exhibitor's name (or ID), county, if applicable, district, must be tagged or labeled on the display.
19. Each exhibitor is required to complete the "4-H Ag Mechanics Welding Exhibit Information Form", for each exhibit, except for display boards, which are available through your local K-State Extension office or at <http://welding.engtech4ks.com/>. This form must be attached to the outside of a 10" x 13" manila envelope. Do not tie the envelope to the exhibit. All revisions of all forms previously released for the division dated prior to current year are void for use and new forms must be obtained and used that are dated by the State 4-H Office for the current year.
20. Each exhibit information packet should include the following items:
 - a. Bill of materials for the project with associated costs shall be provided. Scrap items used may be listed as having a \$0.00 cost.
 - b. 1 to 5 pages of photos showing work on the exhibit, preferably from a beginning state to final or completed state
 - c. If applicable, schematics or working drawings relating to the creation or repair must be provided. This requirement is not required for display boards.
 - d. If appropriate operating instructions.
21. NEW – Videos for the Kansas State Fair may be uploaded to a video sharing site, such as YouTube, instead of being placed on the USB drive. The video should be set as "private" so only those with the link are able to view it. The link should be written on the video form for judges to review. Capitalization in URLs matters, incorrect URLs may result in a ribbon place deduction.

Junior Division – (Ages 7-8)

This level is designed for youth with little to no exposure in the project area so that they can gain an understanding of basic principles and methods in the given area.

- *5550. Welding display board – a 3-foot by 3-foot display board with different pieces of metal attached illustrating different types of welds, each weld being labeled
- *5551. Level 1 Welding ag repair – repair of ag equipment with welding
- *5552. Level 1 Welding ag fabrication – creation of new ag equipment with welding
- *5553. Level 1 Welding general repair – repair of non-ag equipment with welding
- *5554. Level 1 Welding general fabrication – creation of non-ag equipment with welding
- *5555. Level 1 Welding artistic fabrication – creation of artistic or interpretive pieces with welding
- *5556. Level 1 Brazing repair
- *5557. Level 1 Brazing fabrication
- *5558. Smithing display board – a 3 foot by 3-foot display board with different pieces of forged metal attached illustrating different forms, each form being labeled
- *5559 Level 1 Smithing – A design forged with at least one formed element (twists or spirals for example)

Intermediate Division (Ages 9-13)

This level is designed for youth with some experience in the project area allowing them to expand on common principles and methods in the given area.

- 5560. Intermediate Welding Ag Repair. Repair of ag equipment with welding.
- 5561. Intermediate Welding Ag Fabrication. Creation of new ag equipment with welding.
- 5562. Intermediate Welding General Repair. Repair of non-ag equipment with welding.
- 5563. Intermediate Welding General Fabrication. Creation of non-ag equipment with welding.
- 5564. Intermediate Welding Artistic Fabrication. Creation of artistic or interpretive pieces with welding.
- 5565. Intermediate Other Metalwork.
- 5567. Intermediate Smithing. A design forged with at least two different formed elements (twists and spirals for example).

Senior Division (Ages 14 and older)

This level is designed for youth with vast experience in the project area allowing them to master common principles and methods and expand on advanced techniques in the given area.

- 5570. Senior Welding Ag Repair. Repair of ag equipment with welding.
- 5571. Senior Welding Ag Fabrication. Creation of new ag equipment with welding.
- 5572. Senior Welding General Repair. Repair of non-ag equipment with welding.
- 5573. Senior Welding General Fabrication. Creation of non-ag equipment with welding.
- 5574. Senior Welding Artistic Fabrication. Creation of artistic or interpretive pieces with welding.
- 5575. Senior Other Metalwork.
- 5577. Senior Smithing. A design forged with at least three different formed elements (twists, spirals and bulbs for example).

4-H Building Block Engineering

The Building Block Engineering exhibit area focuses on using architectural blocks (“Legos”) to construct dioramas. This project allows youth to explore architectural design in a three-dimensional space. The intent is for this program to start with foundational ideas of architecture, some of which youth may already have, and allow youth to continue to build on this knowledge becoming more and more experienced.

1. Exhibitors are limited to one exhibit.
2. **Top 4 purples** from exhibitors 4-H age 9 and above will be selected for state fair exhibit.
3. Total exhibit dimensions may not exceed 2 feet high, by 2 feet wide, by 2 feet deep.
4. The minimum exhibit dimensions must be at least 6 inches wide and deep.
5. All exhibits are required to be placed in a sturdy see-through enclosure with a top, bottom, and 4 sides. A clear tub turned upside down with the exhibit placed on the lid would be an acceptable enclosure. It may be desirable to place a cutting board or other hard surface between the lid and base plate of the exhibit to make it sturdier. This is to keep exhibit components from being “scattered to parts unknown” at the fair. The outer dimensions of the enclosure do not count towards the total exhibit dimensions but should not be excessive. The entire exhibit should fit in the display enclosures, so the enclosure does not smash into the exhibit during movement.
 - a. Cases are to be removed and should not be bolted down, glued, or sealed in any way that prevents judges from touching the actual display. (Locking handles and snap shut lids are fine.).
6. All components used in construction should be dust and hair free, clean, free of chips, scuffs, cracks, or broken blocks.
7. Gaps or cracks should not be visible between assembled blocks unless they fit with the story, for example an earthquake.
8. The primary building component should be interlocking blocks, commonly referred to by the brand name of Lego®.
9. Other components can be integrated into dioramas to illustrate architectural aspects that may be difficult to convey with traditional interlocking blocks, for example marbles or small round objects.
10. The use of existing “store bought” sets for major elements of the display is not allowed. Use of figurines from sets is allowed as is using individual bricks or small sub-assemblies to create something different than the set it came from. For example, a car hood or front end from a car kit could be used in a “car museum”, just not the entire car. The intent of this is to ensure fairness among exhibitors and encourage maximum creativity instead of just following a set of plans.
11. Dioramas should be suitably complex and have multiple elements. They can be of buildings (inside/outside), natural spaces, imaginative/fictional areas, compartments of vehicles, logic puzzles, about anything you can think of that’s not a picture or artwork. For example, a camp site that has a log cabin, a tree fort, and a car.
12. Lego-built weapons and/or weapon models are allowed. However, graphic details such as blood and “gore” are not to be added, which will result in a ribbon place deduction.
13. All dioramas should have a story, which is part of the information pack, that describes what is happening in the diorama; this can be as simple (the nursery rhyme “Jack and Jill” for example) or complex as needed to explain to someone looking at the exhibit what is happening.
14. Vehicles that are intended to stay in a single place should be affixed to base plates with sticky tack, hot glue, or other method.
15. Mechanical enhancements or motion elements that add motion to the diorama are acceptable and encouraged. For example, merry-go-rounds, doors, elevators, gears, marble going down a channel, flapping wings, animatronics,

etc. If included, judges should be able to use them, and instructions should be provided for operation either in the story or on a separate page.

16. Artistic designs, for example recreating paintings like the “Mona Lisa” or “Starry Nights” and sculptures like “David,” are not permitted as exhibits and one ribbon placing should be deducted. These exhibits should be displayed in Visual Arts

17. The exhibitor’s name (or ID), county, if applicable, district must be tagged or labeled on the display. Additionally the display case should have the exhibitor’s information attached to both the lid (base) and clear container (covering) as well, as the case may be separated from the display.

18. Entry of either a packet without an accompanying exhibit or an exhibit without a packet is not a sufficient exhibit.

19. Each exhibitor is required to complete the “4-H Building Block Engineer Exhibit Information Form” which is available through your local K-State Extension office or at <http://blocks.engtech4ks.com/>. This form must be attached to the outside of a 10” x 13” manila envelope. Do not tie the envelope to the exhibit. All revisions of forms previously released for the division dated prior to current year are void for use and new forms must be obtained and used that are dated by the Kansas State 4-H Office for the current year.

20. Each exhibit information packet should include the following items:

a. 1 to 5 pages of photos showing work on the exhibit, preferably from a beginning state to final or completed state. Final pictures help in determining where a part might go in case something comes loose.

b. If appropriate operating instructions for mechanical portions of the diorama.

c. NEW – Videos for the Kansas State Fair may be uploaded to a video sharing site, such as YouTube, instead of being placed on the USB drive. The video should be set as “private” so only those with the link are able to view it. The link should be written on the video form for judges to review. Capitalization in URLs matters, incorrect URLs may result in a ribbon place deduction.

Juniors – Ages 7-8

*5709. Interlocking brick diorama built from scratch

Intermediate- Ages 9-13

5710. Interlocking brick diorama built from scratch

Senior– Ages 14 & Up

5711. Advanced interlocking brick diorama built from scratch

4-H Electric and Renewable Energy

Conference Judging – Saturday before fair week by schedule beginning 9 a.m., Sterl Hall

Superintendent..... Jody Ehrich

1. Read General 4-H Rules.
2. Each Electronics & Renewable Energy exhibit must include a “4-H Electronics & Renewable Energy Information Form” which is available through your local K-State Extension Office or at <http://electric.engtech4ks.com/>. This form must be attached to the outside of a 10” X 13” manila envelope. You must also include a wiring diagram or schematic. Place them inside the manila envelope. For notebooks, display boards, and posters, no additional exhibit information is required; no manila envelope is needed for these exhibits.
3. All electrical exhibits’ wiring and connections must be accessible for examination by the judges. Sealed exhibits that cannot be opened for inspection are not acceptable.
4. Lithium batteries must be accessible or removeable in exhibits for safety purposes. The exhibit cannot contain a locked compartment housing a lithium battery.
5. The National Electric Code (NEC) will apply for judging.
6. An exhibitor may enter up to three items in this division, but only one article per class.
7. Items that have been in use should be cleaned for exhibit.
8. A sheet of operating instructions must be furnished and included in the manila envelope for any exhibit that is not self-explanatory.
9. Projects (classes 4600, 4601 and 4602) must be operable using only 110 or 120V AC or battery power. If battery power is required, batteries must be furnished.
10. Any project with a complexity of size or electronics must have (a) instructions for assembly and use and (b) if it requires special test equipment beyond a screwdriver or multimeter, it should be available at the time of judging for actual testing of the exhibit.

11. No hand dipped solder may be used on exhibits.
12. If a safety violation is noted by the judges, superintendent, or other staff, the exhibitor's exhibit, at the judge's discretion, may receive a reduced ribbon placement or disqualification.

SPECIAL AWARDS

1. Top three overall exhibits – 1st \$25, 2nd \$15, 3rd \$10 – Bluestem Electric Cooperative, Inc.

ELECTRICAL & ELECTRONICS

4600. AC Electric Projects. Electric projects with a 110 or 120 V alternating current (AC) power source. Some project examples are household wiring demonstrations, small appliances extension cords, trouble lights, indoor or outdoor wiring boards, or shop lights. Projects may be a restoration or original construction. The project must be operational and meet minimum safety standards. AC projects must be 110/120 V, no 240 V exhibits are allowed, and must be constructed such that the judges have wiring access to examine the quality and safety of workmanship.
4601. DC Electric Projects. Electric projects with a battery or direct current power source. This class includes electric kits or original projects. This class also includes demonstration DC powered project. Examples include wiring two-way or three-way switches, difference between series/parallel lighting circuits or wiring doorbells switches. All DC electric projects must include batteries supplied by the 4-H member. Projects must be constructed such that the judges have access to examine the quality of wiring workmanship.
4602. Electronic Projects. Electronic projects with a battery or direct current power source. This class includes electronic kits or original projects. Examples include radios, telephones, toy robots, light meters, security systems, etc. They may be constructed using printed circuit board, wire wrap, or breadboard techniques. Include instruction/assembly manual if the exhibit is from a kit. Include plans if an original project. Projects must be constructed such that the judges have access to examine the quality of wiring workmanship.
4603. Educational Displays and Exhibits. The purpose of the educational display and exhibit is to educate the viewer about a specific area of the 4-H electrical or electronics project. The display or exhibit should illustrate one basic idea. This class includes any educational displays, exhibits or science fair type projects which DO NOT have a power source, i.e. exhibits, posters or displays of wire types, conduit types, electrical safety, tool or motor parts identification or electrical terminology. Educational displays and exhibits must be legible from a distance of four feet, using a maximum tri-fold size of 3' x 4'.
4604. Educational Displays and Exhibits: The purpose of the educational display and exhibit is to educate the viewer about a specific area of the 4-H electrical or electronics project. The display or exhibit should illustrate one basic idea. This class includes any educational displays, exhibits or science fair type projects which DO NOT have a power source, i.e. exhibits, posters or displays of wire types, conduit types, electrical safety, tool or motor parts identification or electrical terminology. Educational displays and exhibits must be legible from a distance of four feet, using a maximum tri-fold size of 3' x 4'.
4604. Newly built or repaired computers. This class is for newly built or repaired computers (laptop or PC) and allows 4-H members to demonstrate skills integrating the various parts of a computer into a single unit. Displays should show either a fully functional computer or show what the individual components do. The display should be free of dust and cabled neatly. Fully functional computers should boot up and do not need to include a monitor, keyboard, or mouse at the State Fair.

ALTERNATIVE ENERGY (A form of energy derived from a natural source, such as the sun, geothermal, wind, tides or waves) All exhibits in this division are limited in size to standard, tri-fold, display boards (36" X 48") and items may not extend beyond 12" from the back board. All displays must be self-standing.

4620. Educational Display - Create an exhibit that addresses a focused topic related to power generated from a renewable energy source. The purpose of the exhibit is to inform and create awareness.
4621. Experiment - Display an experiment addressing a problem or question related to power generated from a renewable energy source. Include hypothesis, background research, variables, a control, data, findings, conclusions and recommendations for future study.

4-H Small Engines

Conference Judging – Saturday before fair week by schedule beginning 9 a.m., Sterl Hall

Superintendent..... Jody Ehrich

1. Read General 4-H Rules.
2. Only those who have met the requirements of the small engine project are eligible to exhibit in this division

3. An exhibitor may enter up to three items in this division, but only one article per class. Use the entry card available from your Extension Office. Record all requested information and securely attach to exhibit.
4. Items that have been in use should be cleaned for exhibit.
5. A sheet of operating instructions must be furnished for any exhibit not self-explanatory.
6. All exhibits should involve engines smaller than 25 horsepower for classes 4610-4612. Engines should have no fuel in tank or carburetor.
7. Displays are limited to 4' wide and 4' deep - both upright and floor displays.

4610. Display - Exhibit a display, selecting one of the following options: 1) a display identifying different engine or lawn and garden equipment parts or a display showing the function of the various engine or lawn and garden equipment parts; OR 2) a display identifying and explaining the function(s) of different special tools needed for small engine repair or maintenance; OR 3) a display illustrating and providing the results of any one of experiments that are included in the project books. No complete engines, lawn tractors, tillers, and chainsaws are permitted in this class. Maximum tri-fold or display board size is 3' x 4'. Items may not extend the 24" from the back of the display board.

4611. Maintenance - Exhibit a display that illustrates either 1) Routine maintenance procedures OR 2) Diagnosing and trouble-shooting specific problems in an engine. No complete engines, lawn tractors, tillers, chainsaws, etc. are permitted for display in this class. A maximum tri-fold size or display board of 3' x 4', items may not extend beyond 24" from the back of the display board.

4612. Operation - Exhibit an operable small engine (no more than 20 HP) overhauled or rebuilt by the member. Include maintenance schedule for the engine and a brief description of steps taken by the member overhauling or rebuilding the engine. The engine should not contain fuel in the tank or carburetor. All exhibits in this division must be self-standing.

4-H Entomology

Conference Judging Saturday before fair week, by schedule, Sterl Hall

Superintendent..... Jody Ehrich

1. Read General 4-H Rules
2. Exhibits must be pre-entered by deadline.
3. This department will be judged by conference type judging. Exhibitor must be available to confer with judge.
4. A 4-H member may exhibit in the collection and/or educational class for the phase in which they are enrolled.
- 5.

COLLECTION CLASSES - General Guidelines

1. All entries should be submitted in an 18x24x3.5-inch wooden display box with a clear plastic top (such as plexiglass). Boxes can be handmade or purchased as long as they are of the correct size. Please visit kansas4h.org for box instructions and plans.
2. 4-Her members may choose to use one of two taxonomies:
 - a. As printed in "Insects in Kansas" book or
 - b. Which follows www.bugguide.net.
3. Each exhibitor is required to identify each box with two identification labels bearing exhibitor's name, county or district, the class, and the statement of taxonomy used. One label goes in the upper left corner of the box (inside) and the other on the lower right corner of the box (outside). Arrange specimens in the box so it can be displayed lengthwise.
4. The number of orders, specimens (and families where required) must be included on both exhibitor's box identification labels. Only one adult insect per species can be used in the Collection Boxes and Notebook Classes, unless labeled as male or female and correctly identified.
5. Arrange specimens in groups or rows parallel to the short sides of the box. Specimens are to be arranged by Order in the box, then Family where required.
6. Two labels should be centered on the pin beneath each specimen. First (closest to the specimen) is the common name label and the second label should include date/locality. Full county name and state abbreviation should be on the second label. Collector's name (or host) on the date/locality label is optional.
7. The specimens should be collected by the exhibitor and should focus on Kansas insects. Insects may be collected from one county into bordering states and labeled accordingly. Please refer to "Entomology Collection Exhibit Resource" for full details on out-of-state insects in collections.

8. Only specimens of the class Insecta should be included.
9. Purchased insects are not to be exhibited in collections, but they may be used in educational displays.
10. Specimens of soft bodied insects such as aphids, lice, termites, etc. should be exhibited in alcohol filled vials; however, the use of alcohol filled should be limited to only those specimens that will lose their shape when pinned, since the vials pose a significant hazard to the rest of the collection if they become loose in transit.
11. Any major violation of rules will result in the exhibition being dropped one ribbon placing. Examples would include, but are not limited to incorrect display box size, missing paper work, feet on display boxes, no special project in notebooks, etc.
12. After the first year in Entomology, all 4-H members need to add an 8 ½ by 11-inch sheet of paper to their collection that states what they did to improve their collection for the current year. This should include how many new insects were added to the display box (please list), how many insects were replaced in the display box (please list), and number of new orders and/or families were added to the display box. Other optional things that could be included are number of insects caught for the year, number of new Orders added this year, number of talks and/or demonstrations given, activities participated in, leadership roles, etc. This paper should be taped to the upper left corner on the front of your display box.
13. Inspect species listed as Species in Need of Conservation, Threatened, or Endangered by the Kansas Department of Wildlife and Parks (KDWP) or the U.S. Fish and Wildlife Service (USFWS) may not be collected or displayed in insect collections or educational exhibits. The most current species list can be found here:
 - a. KDWP: <https://ksoutdoors.gov/Services/Threatened-and-Endangered-Wildlife/Kansas-Threatened-and-Endangered-Species-Statewide>.
 - b. USFWS: <https://ecos.fws.gov/ecp/>

The following insect is currently listed as Threatened or Endangered by the U.S. Fish and Wildlife Service. No specimens may be collected or displayed.

- American Burying Beetle (*Nicrophorus americanus*)

Inclusion of a threatened or endangered species specimen will be considered a major violation and will result in the exhibit being dropped one ribbon placement. Additional details are available on the Entomology project page at www.kansas4-H.org

Photographs are permitted in place of specimens. Photos must depict live insects. Youth may not kill insects to obtain photographs or damage habitat in the process.

See section below for **best collection practices** for species of ecological importance and/or being considered in decline or potential listing on SINC (species in need of conservation) and/or threatened/endangered species list.

Species in Decline and Recommended Collection Practices

The species listed below are not currently protected under federal or state regulations; however, *they are under consideration for future protective status*. To support ongoing conservation efforts, Kansas 4-H is doing its part and not allowing 4-H members to collect these species at this time.

The inclusion of these specimens will be considered a major violation and will result in the exhibit being dropped by one ribbon placement.

- Monarch Butterfly (*Danaus Plexippus*)
- Eastern Regal Fritillary Butterfly (*Argynnis idalia idalia* or *Speyeria idalia*)
- Western Regal Fritillary Butterfly (*Argynnis idalia occidentalis* or *Speyeria occidentalis*)

14. A minimum of 10 new specimens must be added and/or replaced each year.
15. Do not put the spindle-shaped bag of a Bagworm in your collections (as a female example of the species). These bags must be cut open to determine if the caterpillar inside is a male or female. Opening the box to confirm the ID correctness could pose a significant risk to the collection.

COLLECTION

***761. Introductory insect collection of at least 6 orders, including 15 to 30 species to be shown in cigar boxes, or boxes of similar size.** Insect names or labels of insect orders are required pinned to bottom of box. (Not offered at the Kansas State Fair.)

4900. Beginning Collection I - Display in one standard box a minimum of 50 specimens and maximum of 125 specimens representing at least 7 orders. Follow the rules listed for all collections. Specimens should be grouped according to order with the order labels pinned to the base of the box. Members can exhibit in this class a maximum of 3 years, or until they receive a purple ribbon at the Kansas State Fair, whichever comes first and then they must move up a division. Follow instructions listed for all collections in items #1-#10 above.

4901. Beginning Collection II - Display in one standard box a minimum of 75 specimens and a maximum of 150 specimens representing at least 9 orders. Follow instructions listed for all collections in items #1 through #10 above. Members can exhibit in this class a maximum of 3 years or until they receive a purple ribbon at the Kansas State Fair, whichever comes first and then they must move up a division.

4903. Intermediate Collection - Display a minimum of 100 and a maximum of 300 specimens representing at least 10 orders. Two standard boxes can be used. Follow the general guidelines listed for Collections. In addition, family identification is required for all insects in any two of the following six orders: (Only two will be counted for judging)

a. "Insects in Kansas" book – Orthoptera, Hemiptera, Homoptera, Coleoptera, Hymenoptera, and/or Diptera

b. "Insects in Kansas Book: 2016 Revised Taxonomy," which follows www.bugguide.net – Taxonomy - Odonata, Orthoptera, Hemiptera, Coleoptera, Hymenoptera, and/or Diptera. Members can exhibit in this class a maximum of 3 years. A 4-H member must move up if they receive a purple ribbon at the Kansas State Fair.

4905. Advanced Collection - Display a minimum of 150 and a maximum of 450 specimens representing at least 12 orders. Three standard boxes can be used. Follow the general guidelines listed for Collections. Family identification is required for all insects belonging to the six basic orders as outlined under the Intermediate Phase. Only families in the above six orders will be counted for judging. Family identification of insects in the remaining orders is optional, but desirable as long as accuracy is maintained. Members may continue to exhibit in this class at the Kansas State Fair for an unrestricted number of years as long as they remain eligible for 4-H membership.

NOTEBOOK CLASSES - General Guidelines

1. Individual entries are to be placed for display in a three-ring notebook for competition. For the Intermediate and Advanced level, two notebooks may be used. A Title Page must be placed in the front of the second notebook. (Refer back to Rule #3 in Notebook Rules).
2. 4-Her members choose to use one of two taxonomies:
 - a. "Insects in Kansas" book or
 - b. which follows www.bugguide.net.
3. 4-Hers who have been previously enrolled in or are currently enrolled in the other phases of the Entomology project need to start with the Beginning Phase of Entomology Notebooks, not the Introductory phase.
4. Each exhibitor is required to identify the notebook by placing a Title Page in the front of the notebook bearing the exhibitor's name, county or district and class 4-H'er is enrolled in and statement of taxonomy used.
 - a. "Insects in Kansas"
 - b. "Insects in Kansas; 2017 Revised Taxonomy" which follows www.bugguide.net.
 - c. The number of orders, specimens, and families (required in Intermediate and Advanced classes) must also be included on the Title Page.
5. Specimen pages should be grouped according to order and should include one page per species. If more than one insect is in the photo, an arrow to indicate identified insect should be used.
6. Date, common name, full county name, state abbreviation and collector name should be included for each species. Collector's name on the specimen page is optional.
7. Specimen pages should have two different views of the insect if possible. If pictures are taken on different dates/localities, include information for both.
8. A statement describing the habitat where found/host plant may be included and is encouraged and will be worth a bonus 10 points total, not per page. For Intermediate and Advanced notebooks, this is strongly encouraged.
9. A divider page is to be placed in front of each order of insects with the order name printed on the tab for the page and also on the front of the divider page.
10. For the Intermediate and Advanced classes, insects are also to be grouped by family behind each order divider.

11. After the first year in Entomology, all 4-H members need to add an 8 ½ by 11-inch sheet of paper to their Photo Collection Notebook that states what they did to improve their notebook for the current year. This should include how many new insect photo pages were added to the Notebook (please list), how many insect photo pages were replaced in the Notebook (please list), and number of new orders and/or families added to the Notebook. Other optional things that could include are number of insects photographed for the year, number of new Orders added this year, number of talks and/or demonstrations given, activities participated in, leadership roles, etc. This paper should be placed right behind the Title Page in your Notebook.
12. A special project must be completed each year and included in the notebook. See project guideline materials for specifications.
13. Any major violation of rules will result in the exhibition being dropped one ribbon placing. Examples would include, but are not limited to: incorrect photo size, missing paperwork, no special project in notebooks, etc.
14. A minimum of 10 photo pages of new species must be added and/or replaced each year.

NOTEBOOKS

4907. Introductory Entomology Notebook: Display a minimum of 10 and a maximum of 30 insect species representing at least six different orders. Follow the general guidelines listed for Notebooks, including the Special Project. A 4-H member must be of minimum age to compete at the Kansas State Fair. A 4-H member may exhibit in this class for a maximum of two years.

4908. Beginning I Entomology Notebook: Display a minimum of 20 and a maximum of 50 insect species representing at least 7 different orders. Follow the general guidelines listed for all Notebooks, including the Special Project. Members can exhibit in this class for a maximum of 3 years or until they receive a purple ribbon at the Kansas State Fair.

4911. Beginning II Entomology Notebook: Display a minimum of 40 and a maximum of 70 insect species representing at least 8 different orders. Follow the general guidelines listed for all Notebooks, including the Special project. Members can exhibit in this class for a maximum of 3 years or until they receive a purple ribbon at the Kansas State Fair.

4909. Intermediate Entomology Notebook: Display a minimum of 60 and a maximum of 100 insect species representing at least nine orders. Follow the general guidelines listed for Notebooks, including the Special Project. In addition, family identification is required for all insects in any two of the following six orders: (Only two will be counted for judging)

- a. "Insects in Kansas" book – Orthoptera, Hemiptera, Homoptera, Coleoptera, Hymenoptera, and/or diptera or
 - b. "Insects in Kansas Book: 2016 Revised Taxonomy" which follows <https://bugguide.net> Taxonomy - - Odonata, Orthoptera, Hemiptera, Coleoptera, Hymenoptera, and/or Diptera
- Members can exhibit in this class a maximum of 3 years or until they receive purple ribbon at the Kansas State Fair. A 4-H member must move up if they receive a purple ribbon.

4910. Advanced Entomology: Display a minimum of 100 and a maximum of 200 species representing at least twelve orders. Follow the general rules listed for Notebooks, including the Special Project. Follow the general guidelines listed for notebooks. Family identification is required for all insects belonging to the six basic orders as outlined under the Intermediate phase. Only families in the above six orders will be counted for judging. Family identification of insects in the remaining orders is optional, but desirable as long as accuracy is maintained. Members may continue to exhibit in this class for an unrestricted number of years as long as they remain eligible for 4-H membership.

EDUCATIONAL DISPLAY CLASSES - General Guidelines

1. All entries should be submitted in an 18x24x3.5-inch wooden display box with a clear plastic top (such as plexiglass). Boxes can be handmade or purchased as long as they are of the correct size. Arrange display in the box so the box can be displayed lengthwise.
2. Each exhibitor is required to identify each box by two identification labels bearing exhibitor's name, county or district and the class in the box. One label goes in the upper left corner of the box (inside) and the other on the lower right corner of the box (outside). Information on numbers and kinds of insects is not needed for educational exhibits.
3. Displays may consist of specialized groups of insects or their close relatives, or relate to any aspect of their behavior, biology, or ecology.

4. Displays should be presented in a clear, concise, and interesting manner.
5. Displays should include only work performed during the current year.
6. Title of the exhibit should be indicated inside the box.
7. The purpose of the project is to learn more about the importance, life cycles, biology, ecology, diversity, etc. of insects and related arthropods. Subject matter can be as varied as the animals themselves.
8. Creativity is encouraged!
9. Any major violation of rules will result in the exhibition being dropped one ribbon placing. Examples would include, but are not limited to: incorrect display box size, missing paperwork, feet on display boxes, no special project in notebooks, etc.

EDUCATIONAL DISPLAY

1. Share with others what you learned in this project. Exhibit any activity or learning experience related to the field of entomology or the Teaming with Insects curriculum that does not fit into Entomology Collection or Notebook classes above.
2. Follow copyright laws as explained in the General Rules.
3. The exhibit may be, but isn't limited to, original works, digital presentations (must provide printed hardcopy for exhibit purposes for duration of state fair), programs, websites, games, apps, display box, notebook, display, or poster which you have made.
4. If the exhibit is a wooden display box, it must be 18x24x3.5 inches with a clear plastic top (such as plexiglass) and displayed horizontally. If the exhibit is a poster, it must not be larger than 22" x 28". If the exhibit is a display, maximum size is not to exceed a standard commercial 3x x 4' tri-fold display board.
5. Name and county/district must be clearly marked on educational exhibits.
6. Refer to Entomology General Rule 14 for information on Threatened and Endangered Species specimens that cannot be displayed in Educational Exhibits.

4902. Beginning Educational Display – Class for individuals that are exhibiting in the Beginning I and II Collection or Beginning I of II Notebook Classes. If only exhibiting in this category, then ages 9-12.

4904. Intermediate Educational Display – Class for individuals that are exhibiting in the Intermediate Collection or Intermediate Notebook Classes. If only exhibiting in this category, then ages 11-14.

4906. Advanced Educational Display – Class for individuals that are exhibiting in the Advanced Collection or Advanced Notebook Classes. If only exhibiting in this category, then ages 13 and older.

Species in Collections and Best Practices:

Responsible collecting is essential to conserving insect biodiversity, *particularly for species experiencing population declines or under review for legal protection*. To avoid harming vulnerable populations and to support conservation and education goals, certain species will not be accepted in collections or displays.

A. Monarch Butterfly Educational Display Rules:

Known scientifically as *Danaus Plexippus*, the monarch butterfly is famous for its multigenerational migration, with some individuals traveling up to 3,000 miles across North America. Monarch populations have experienced significant declines due to habitat loss, pesticide exposure, and climate change, and the species is currently under consideration for protection in the United States, while it is listed as Endangered on the IUCN Red List globally.

Kansas 4-H members can play an important role in monarch conservation by restoring and maintaining habitat, particularly by planting milkweed and nectar plants, and by educating others about actions that support monarch recovery without harming natural populations.

1. Exhibits should teach the public about the Monarch Butterfly and/or ways to protect and conserve it. The information could show nectar sources for adult butterflies and food sources for caterpillars. Monarch tagging activities, collection of native milkweed and the packaging it to give to others to plant, a group working together to plant a Monarch friendly garden, etc.
2. 4-H members may create a poster, notebook, standard-size tri-fold diorama, slide show, or other visual display that shows information on Monarch Butterflies.

3. Specimens of the actual Monarch Butterfly insect, caterpillars, or chrysalis **MAY NOT BE USED** in these displays.

If a slide show is created, it should be presented on a USB drive along with a printed copy of the presentation.

- B.** Other species to avoid in collections (given pending conservation concerns, these species may be vulnerable to over-collecting).
- i. Eastern Regal Fritillary Butterfly (*Argynnis idalia idalia* or *Speyeria idalia*)
 - ii. Western Regal Fritillary Butterfly (*Argynnis idalia occidentalis* or *Speyeria occidentalis*)
 - iii. Bumble bees, the American bumble bee, and the Southern Plains bumble bee are currently considered to be in decline regionally).

4920. Beginning Monarch Butterfly Educational Display Class: for 4-H members enrolled in Beginning I or II Entomology

4930. Intermediate Monarch Butterfly Educational Display Class: for 4-H members enrolled in Intermediate Entomology

4940. Advanced Monarch Butterfly Educational Display Class: for 4-H members enrolled in Advanced Entomology

4-H Geology

Conference Judging – Saturday before fair week, by schedule, Sterl Hall

Superintendent..... Jody Ehrich

1. Read General 4-H Rules.
2. Exhibits must be pre-entered by deadline.
3. This department will be judged by conference type judging. Exhibitor must be available to confer with the judge.
4. The exhibit box's outside dimensions should be 18" x 24" x 3 1/2". Plexiglas covers are required. Boxes with glass covers WILL NOT be accepted. All specimens are to be arranged across the narrow (18") dimension of the exhibit box, making the exhibit 18" across the top and 24" deep exactly. If a box has a sliding Plexiglas cover, it must be removable from the top. Screws, locks, or other devices that would prevent judges from removing the cover should not be used. For Lapidary classes 5300-5304 only, the dimensions of the box should be appropriate for the display but outside dimensions should not exceed 18"x24"x3 1/2".
5. Each exhibitor is required to identify each display box by placing an identification label bearing their whole name or first initial with last name, county or district, and number of specimens in the upper left-hand corner of the Plexiglas cover and by attaching a label with the same information to the lower right-hand corner of the box (outside).
6. Exhibitor may enter in both geology and lapidary class. Exhibitor may show in only one of the first for geology classes (5200, 5201, 5202, or 5203). Exhibitor may also show in geology class 5204 Geology Educational Exhibit, 5205 Mineralogy, 5206 Paleontology, 5207 Petrology, and in one lapidary class.
7. Geology specimens should be labeled with the number of the specimen, date collected, specimen name or description, and locality (county only) where collected.
8. All specimens must be collected in the state of Kansas (only exception-see #7) New specimens must be collected during the current 4-H year, which will be allowed starting on the day after the conclusion of the State Fair.
9. For the geology classes 5200, 5201, 5202, 5203, specimens should be mounted in the box by proper groups: rocks, minerals, fossils. Fossils must be identified to the Phylum, Class, and Genus level (if possible, or part if Genus cannot be determined). The Genus specimen name is to begin with a capital letter and the whole specimen's name must either be italicized or underlined, not both. Species name is not required however, if a species name is used it must be all lowercase and either italicized or underlined, not both. The words "Phylum, Class, Genus" on labels are to be spelled out, not abbreviated. More than one specimen of the same kind of rock or mineral or species of a fossil may be exhibited if this duplication represents different geological formations. Specimen label must show this distinction (Fort Hays limestone, not just limestone; calcite from the Greenhorn Formation, not just calcite; Phylum: Brachiopoda Class:

Articulata Genus: Composita from the Morrill Limestone Member, not just Phylum: Brachiopoda Class: Articulata Genus: Composita).

10. For geology classes 5200, 5201, 5202, 5203, 5205, 5206 and 5207, all specimens must be collected by the participant (not purchased) from locations in Kansas, with the exception of Tri-State Mining Area specimens collected from these adjacent counties: Ottawa County, OK; Newton and Jasper Counties, MO. Other out of state specimens will not count in the minimum number for the class, nor will they be considered in the judging.

GEOLOGY CLASSES

***520. Display of specimens found this year.** May be exhibited in any pleasing manner such as a divided compartment box or regulation geology box. Exhibit should be labeled with specimens' names, location found, and date collected. You may exhibit in this class until you wish to exhibit at the State Fair.

5200. First-time exhibitor. Display at least 15 rocks, minerals or fossils collected during the current 4-H year. Exhibit limited to one exhibit box. Fossils must be identified to the Phylum level. *Five (5) specimens must be collected during the current year, with the remaining required specimens being collected in previous years.*

5201. Second- or Third-time exhibitor. Display at least 30 rocks, minerals, or fossils, at least 5 of each 15 must be collected during the current 4-H year. Exhibit limited to one exhibit box. Fossils must be identified to the Phylum level. *Five (5) specimens must be collected during the current year, with the remaining required specimens being collected in previous years.*

5202. Fourth- or Fifth-time exhibitor. Display at least 45 rocks, minerals, or fossils at least 5 of each; at least 15 specimens of current year's work. More than one specimen of the same kind of rock or mineral or species of a fossil may be exhibited if this duplication represents different geological formations. Specimen label must show this distinction (Fort Hays limestone, not just limestone). Exact species must have different formation names listed on the I.D. Card (Composita Brachiopod from Morrill Limestone not just Brachiopod or Composita Brachiopod). Exhibit limited to two exhibit boxes. Rocks must be identified by their proper name and type. Fossils must be identified to the Phylum level. *Five (5) specimens must be collected during the current year, with the remaining required specimens being collected in previous years.*

5203. Sixth time or more exhibitor. Display at least 60 rocks, minerals, or fossils, at least 5 of each. 15 must be collected during the current 4-H year. Exhibit limited to 2 boxes. Identify the rocks as igneous, metamorphic, or sedimentary. These rock types must be spelled out on labels or have a legible key. *Five (5) specimens must be collected during the current year, with the remaining required specimens being collected in previous years.*

5204. Educational exhibit: Exhibit relating to everyday living or to a mineral test, a rock formation, geological history, species of a fossil, forms of one mineral, a variation of one kind of rock, archeological artifacts, or Indian artifacts. Digital formats are accepted. Please make arrangements for the judge to view your exhibit and have a hard copy for display. List your sources used (example – web address or books reviewed as a citation list). Exhibits limited to 4 feet of table space. Care should be taken to use durable materials that will withstand fair conditions. Exhibitors may show in the class regardless of number of times he or she has exhibited previously or whether exhibitor has entries in classes 5200, 5201, 5202, or 5203. Exhibitor may also exhibit in lapidary class.

5205. Mineralogy. Display a minimum of 15 mineral specimens collected in Kansas, at least 5 of which have been collected during the current 4-H year. The minerals are to be grouped by mineral class (i.e.; Carbonates, Oxides, Silicates) and at least 3 classes must be represented. The member must use one standard display box (See #4). The specimens must be labeled with the number of the specimen, date collected, name of specimen, county where collected and chemical composition (i.e.: CaCO_3 for calcite) if known.

5206. Paleontology. Display a minimum of 15 fossil specimens collected by the participant in Kansas, at least 5 of which have been collected during the current 4-H year. The fossils are to be grouped by Phylum and Class, and at least 3 phyla must be represented (Brachiopoda, Chordata, Mollusca, etc.) The member must use one standard display box (see #1). The specimens must be labeled with the number of the specimen; date collected; county where collected; formation, member, or source; phylum, class, and genus or part; and geologic age (Cretaceous, Permian, Pennsylvanian, etc.) See #6 for additional fossil labeling expectations.

5207. Petrology. Display a minimum of 15 rock specimens collected in Kansas, at least 5 of which have been collected during the current 4-H year. Rocks are to be grouped by the 3 rock classes (Sedimentary, Igneous, and Metamorphic). You must display at least one specimen from each of the three classes. The specimens must fit in one standard display box (see #1). Specimen labels must include a specimen number, the date collected, name of specimen, and the county where collected. All rocks must be identified by the formation and member name (Examples: Fort Hays Limestone, Member of the Niobrara Chalk Formation) or source (Examples: Rocky Mountain Outwash, glacial till).

LAPIDARY CLASSES

The lapidary will be judged on the following criteria:

Workmanship and Content-----	60 points
Presentation and Showmanship-----	30 points
Accuracy of Information-----	10 points

The dimensions of the box should be appropriate for the display but outside dimensions should not exceed 18" x 24" x 3½".

The work (polishing/tumbling) must be done by the exhibitor as this is part of the learning process.

All lapidary specimens should be labeled with the following information:

- Specimen name
- Place of origin (country, state, or county; county required for Kansas specimens)
- Purchased or self-collected
- Date lapidary treatment began
- Date lapidary treatment completed

* Special lapidary exhibits should be entered in class 5304. Please note that each member is limited to one entry in this class.

5300. Lapidary. Display at least 5 varieties of polished (tumbled) specimens and 5 varieties of unpolished specimens that have not yet received lapidary treatment. These do not have to be an example of "before and after", nor do they have to be self-collected. Locales must be identified. Only those exhibiting lapidaries for the first time may exhibit in this class.

5301. Lapidary. Display before and after examples of at least 3 varieties of specimens, at least 2 tumble-polished and 2 unpolished of each. There is no requirement that the 4-H member collect any of these. Locales must be identified. Lapidary work should be done during the current 4-H year.

5302. Lapidary. Display before and after examples of at least 6 varieties of specimens, at least 2 tumble-polished and 2 unpolished of each. At least 2 varieties should be collected from the native site by the 4-H member, at least 1 of which comes from Kansas. Locales must be identified. Lapidary work on at least 3 varieties should be done during the current 4-H year.

5303. Lapidary. Display before and after examples of at least 9 varieties of specimens, at least 2 tumble-polished and 2 unpolished of each. At least 3 varieties should be collected from the native site by the 4-H mem, at least 2 of which come from Kansas. Locales must be identified. Lapidary work on at least 3 varieties should be done during the current 4-H year.

5304. Lapidary. Exhibit at least 6 specimens that have not previously been exhibited, which have received lapidary treatment. Lapidary treatment may consist of polishing and end, face, or flat lapping. Specimens must represent at least 3 different varieties and include at least 3 cabochons of any shape or size, only 1 of which may be free-formed. A cabochon is a style of cutting in which the top of the stone forms a domed or curved convex surface. Three of the specimens must be mounted into jewelry findings.

4-H Other/Miscellaneous Projects

Conference Judging – Saturday before fair week, by schedule, Sterl Hall

Superintendent..... Susan Hettenbach

Exception: Exhibits considered too fragile or too valuable to be on display throughout fair week should be brought for conference judging and then taken home immediately.

1. Read General 4-H Rules. All exhibits must be pre-entered by deadline at ckff.fairentry.com
2. Size guidelines. Display footprint size is limited to 24" x 18" to fit in display case.
 - b) **Educational Display:** Must be the standard tri-fold board ONLY, must not exceed standard tri-fold: 3'x4' unless there is a topper that sits on top of the board and does not take up additional table space, no additional table space available for promotional brochures or display items; content not to exceed display board borders. Failure to follow size limitations will penalize entry one ribbon color.
 - c) **Promotional Posters:** must be flat and no larger than 22"x30"; content not to exceed display borders; Failure to follow size limitations will penalize entry one ribbon color.
 - d) **Notebooks** – no larger than 8 ½" x 11".

1. Entries are limited to 2 per project. Entries will depend entirely on the 4-Hers own imagination and interpretation and should consider neatness, appearance, educational value, originality, promotional ideas, and over-all quality.
2. Classes marked with asterisk (*) ineligible for State Fair.

***834. ALL OTHER PROJECTS WITH NO DEPARTMENT OR CLASS.** (2 exhibits per project). Flat posters no larger than 22"x30" or standard tri-fold no larger than 3'x4'.

4-H Cloverbud Projects

Conference Judging – Saturday before fair week, by schedule, Sterl Hall

Superintendent..... Susan Hettenbach

Exception: Exhibits considered too fragile or too valuable to be on display throughout fair week should be brought for conference judging and then taken home immediately. Cloverbuds may bring pets from the approved Cloverbud list for conference judging, provided they are taken home right after judging. See [Kansas 4-H Cloverbuds Program Resource Guide](#).

1. Read General 4-H Rules. All exhibits must be pre-entered by deadline at ckff.fairentry.com
2. Size guidelines. Display footprint size is limited to 24" x 18" to fit in display case.
 - **Educational Display:** Must be the standard tri-fold board ONLY, must not exceed standard tri-fold: 3'x4' unless there is a topper that sits on top of the board and does not take up additional table space, no additional table space available for promotional brochures or display items; content not to exceed display board borders.  - **Notebooks** – no larger than 8 ½" x 11".

The 4-H Cloverbuds program is specifically designed for 5–6-year-olds, providing them with a unique introduction to the world of 4-H and experiential learning. This program focuses on nurturing curiosity and encouraging exploration through hands-on activities tailored to younger children. Cloverbuds engage in fun projects related to science, arts and crafts, healthy living, and community service, all aimed at fostering personal development and social skills.

***832. Cloverbud 4-Her Project - exhibit (limit 2)** (Will receive participation ribbon and premium).

4-H Shooting Sports

Conference Judging – Saturday before fair week, by schedule, Sterl Hall

Superintendent..... Susan Hettenbach

3. Read General 4-H Rules. All exhibits must be pre-entered by deadline at ckff.fairentry.com
- Shooting Sports - Class 6200, 6201, and 6202 (includes Archery)
- a. Exhibits in this division are open to educational displays, promotional posters, or experiential displays. Follow copyright laws as explained in the General Rules as you are preparing your exhibit. Take care to select durable materials to withstand fair conditions.
 - b. National Minimum Standards and Best Practices <https://4-hshootingsports.org/wp-content/uploads/2024/01/12.13.23-Minimum-Standards-Update.pdf> MUST be followed as well as Kansas 4-H Shooting Sports Handbook. https://bookstore.ksre.ksu.edu/pubs/kansas-4-h-shooting-sports-handbook_4H1101.pdf Exhibits outside these standards will be disqualified.
 - c. The exhibit size rule will be strictly enforced. Exhibits exceeding the size guidelines will be disqualified. Maximum exhibit size for all exhibits in this division is 4'X6'. Larger exhibits will be turned away.
 - d. Educational Display: must be the standard tri-fold board ONLY, must not exceed standard tri-fold: 3'x4' unless there is a topper that sits on top of the board and does not take up additional table space; no additional table space available for promotional brochures or display items; content not to exceed display board borders.
 - e. Promotional Posters: must be flat and no larger than 22"x30"; content not to exceed display board borders. Exhibits may be displayed on wall.
 - f. Notebooks: no larger than 8 ½" x 11".

- g. Exhibits must not display, describe, or depict firearms or firearm components that are not allowed by 4-H Shooting Sports National Minimum Standards.
- h. EXHIBITORS MUST COMPLY WITH STATE AND FEDERAL LAWS AND CKFF MANAGEMENT POLICIES.
- i. No “live” ammunition containing propellant or explosive powders may be used in any display! An inert substitution must be used in lieu of powder and “live” ammunition. The substitution must be clearly described on the back of the poster, display, or in a notebook.
- j. Please remember that CKFF nor Kansas State University Extension are liable for the loss or damage of any personal property included as part of your poster, display, or notebook.
- k. Name, county, or district, age and year in project, should be on the front of the poster, display or notebook unless special arrangements are made because of declination of publicity release.
- l. Exhibit topics regarding firearm care, handling, and shooting will only be accepted from Extension Units with 4-H Certified Shooting Sports Programs and enrolled 4-H youth in the specific Shooting Sports Project, and must follow National and State policies, minimum standards, and best practices.
- m. Exhibits will not be accepted if they are related to reloads.

6200. Shooting Sports Educational Display – Must be directly related to 4-H Shooting Sports Project (standard tri-fold boards only, no larger than 3’x4’)

6201. Shooting Sports Promotional Poster – Must promote **4-H Shooting Sports** (maximum size 8 ½” x 11”)

6202. Shooting Sports Notebook – Contents pertain to some phase, results, story, or information about 4-H Shooting Sports

6203. Shooting Aid or Accessory - (SF253) - Any item the 4-Her makes which helps the shooter/hunter better perform their sport, examples: rifle sling, kneeling roll, arm guard, shotgun vest, target boxes, shooting stick, etc. Include your design, or plans you adapted, what the item is and used for.

6204. Storage Case - (SF254) - Any item the 4-Her makes with the purpose to safely hold a firearm, bow, ammunition, and/or arrows. Examples: soft sided shotgun case, quivers, firearm safe, include your design, or plans you adapted. Explain how the storage case is used.

6205. Practice Game or Activity - (SF255) - Invent or adapt an activity to practice or teach a project skill. Include pictures of youth playing the game, testimonials of 4-H members who played the game, what skill is being worked on, and directions for the game. Explain how you came up with the game or adapted it to fit the needs of your group members.

4-H Veterinary Science

Conference Judging – Saturday before fair week, by schedule, Sterl Hall

Superintendent..... Susan Hettenbach

1. Read General 4-H Rules. All exhibits must be pre-entered by deadline at ckff.fairentry.com

Veterinary Science Classes

- a. A Veterinary Science exhibit may consist of a poster, notebook, project display, or diorama. The exhibit may represent material from any of the Veterinary Science projects including entry level exhibits from Unit I.
- b. If photographs are to be part of the exhibit, remember that they will be viewed by the public. Make sure that the photographs are in good taste and will not be offensive to anyone. Graphic photographs of excessive bleeding, trauma or painful procedures are not appropriate. For exhibits related to veterinary surgical procedures, aseptic techniques need to be shown, for example, use of drapes, use of sterile procedures, wearing of gloves and other appropriate veterinary medical practices.
- c. First-Aid Kits: Because of public safety concerns and risk of theft of first-aid kit contents (veterinary drugs/equipment) with perceived potential for drug abuse, animal first aid kits containing any drugs or medications will be immediately disqualified and not displayed. First Aid kits wishing to include medication information should instead utilize written descriptions, photographs, drawings, computer generated printouts or empty packaging of pharmaceuticals.
- d. Veterinary Science Posters - This exhibit presents the viewer with a design that is simple and direct, unlike a display that usually presents more information. A poster should not exceed 22” x 30” and may be either vertical or horizontal. Trifolds and framed posters will not be accepted as a poster entry.

- e. Veterinary Science Displays - A display may include but is not limited to: a 3- dimensional exhibit, a scale model, the actual product (for example: skeleton; teeth; samples of leather, fur, or dried skin damaged by disease or parasites) or a notebook. A display is not a poster. All displays need to be on 3' x 4' trifold board or in a three ring-binder. Smaller boards will not be accepted.
- f. Veterinary Science Notebooks: Individual entries are to be placed on display in a three-ring notebook for competition. Notebooks may not be larger than 8 1/2' x 11".
- g. Veterinary Science Diorama: A diorama is a 3-dimensional model or exhibit that depicts a scene, event, or environment. All dioramas need to be contained. The size is not to exceed 3'x3'x3'.
- h. Name, county/district, age and year in project should be on the front of the poster, display, notebook or diorama.
- i. Appropriate topics include:
 - i. Maintaining Health
 - ii. Specific disease information
 - iii. Photographic display of normal and abnormal characteristics
 - iv. Animal health or safety
 - v. Public health or safety
 - vi. Proper animal management to ensure food safety and quality
 - vii. Efficient and safe livestock working facilities
 - viii. A topic of the exhibitor's choosing related to veterinary medicine or veterinary science.
- j. Because these are science displays, all references and information must be properly cited. Make sure to highlight all sources and references. Proper sources include but are not limited to: Professional journals and publications, professional AVMA accredited websites, interviews with veterinarians and excerpts from Veterinary Educational Literature. Plagiarism will result in disqualification. Please study your topic and present the information to your audience in your own words.
- k. The Veterinary Science Modules are for sourcing, referencing, and learning purposes. The modules are not for project submission. Any notebooks, posters, displays, or dioramas submitted with only Veterinary Science Modules work will be disqualified.

7000 – 4-H Veterinary Science Notebook
 7001 – 4-H Veterinary Science Poster
 7002 – 4-H Veterinary Science Project Display
 7003 – 4-H Veterinary Science Diorama.

4-H Wildlife

Conference Judging – Saturday before fair week, by schedule, Sterl Hall
 Superintendent..... Susan Hettenbach

1. Read General 4-H Rules. All exhibits must be pre-entered by deadline at ckff.fairentry.com
- Wildlife – Class 5400, 5401, 5402, 5403, 5404, 5405, 5406, 5407, 5408, 5409, 5410, 5411, 5412, 5413
- a. Exhibitors must comply with state and federal laws. It is illegal to possess threatened or endangered wildlife, or the feathers, nests, or eggs of non-game birds. Game birds and game animals taken legally during an open season may be used. Every wildlife on display must have a statement about how they were obtained legally. The use of live wild animals in educational exhibits is prohibited.
 - b. Exhibits in this division are open to educational displays, promotional posters, or experiential displays. Exhibits should reflect learning in the project area. Follow copyright laws as explained in the General Rules as you are preparing your exhibit. Take care to select durable materials to withstand State Fair conditions.
 - c. Wildlife exhibits that reflect harvesting of wildlife must follow National Minimum Standards and Best Practices <https://4-hshootingsports.org/wp-content/uploads/2024/01/12.13.23-Minimum-Standards-Update.pdf> and Kansas 4-H Shooting Sports Handbook <https://bookstore.ksre.ksu.edu/pubs/kansas-4-h-shooting-sports-handbook> [4H1101.pdf](https://bookstore.ksre.ksu.edu/pubs/kansas-4-h-shooting-sports-handbook) and Kansas Fish and Game laws. Exhibits outside these standards will be disqualified.

- d. The exhibit size rule will be strictly enforced. Exhibits exceeding the size-guidelines will be disqualified. Maximum exhibit size for all exhibits in this division is 4'X6'. Larger exhibits will be turned away.
- e. Educational Display: must be the standard tri-fold board ONLY, must not exceed standard tri-fold: 3'x4' unless there is a topper that sits on top of the board and does not take up additional table space; no additional table space available for promotional brochures or display items; content not to exceed display board borders.
- f. Posters: must be flat and no larger than 22"x30"; content not to exceed display board borders. Exhibits may be displayed on wall.
- g. Notebooks: no larger than 8 ½" x 11".
- h. Exhibits must not display, describe, or depict firearms or firearm components that are not allowed by 4-H Shooting Sports National Minimum Standards.
- i. Exhibits must not display, describe, or depict firearms or firearm components that are not allowed by 4-H Shooting Sports National Minimum Standards.
- j. No "live" ammunition containing propellant or explosive powders may be used in any display. An inert substitution must be used in lieu of powder and "live" ammunition, the substitution must be clearly described on the back of the poster, display or in a notebook.
- k. The Kansas State Fair nor the department of 4-H Youth Development, KSRE are liable for the loss or damage of any personal property included as part of your poster, display or notebook.
- l. Name, county or district, age and year in project should be on the back of the poster, display or notebook unless special arrangements are made because of declination of publicity release.
- m. Exhibit topics regarding firearm care, handling, and shooting will only be accepted from Extension Units with 4-H Certified Shooting Sports Programs and enrolled 4-H youth in the specific Shooting Sports Project.
- n. Exhibits will not be accepted if they are related to reloads.
- o. Taxidermy: the exhibitor is responsible for following all laws, rules, and regulations, and when licenses, tags, etc. are required to include those and/or the information required with the exhibit. For taxidermy, please reference hunting and furbearer laws for Kansas. [Small Game & Furbearing Animals | Kansas Department of Wildlife and Parks](#)
- p. Name, county or district, age and year in project should be in a prominent location on the exhibit.

5400. Wildlife - Notebook, contents pertain to some phase, results, story, or information about the wildlife projects. (See Rule f.)

5401. Wildlife - promotional poster. Must be directly related to something learned in the wildlife project. Flat poster board or foam board no larger than 22"x28" (See Rule f.)

5402. Wildlife - Educational display. Must be directly related to the wildlife project. (Maximum size 3' x 4' tri-fold) (See Rule f.)

5403. Fish Harvesting Equipment - (SF168) - Board exhibit. Display of equipment used in fish harvesting. Examples: fishing knots, hooks (with corks over ends for safety), lures. Label all items displayed. Include in your exhibit the following information: the purpose of each item, when or where each item is used.

5404. Build a Fishing Rod - (SF169) - A fishing rod educational exhibit may not exceed 96 inches in length. Exhibit must be mounted on a board. Included with the exhibit: Explanation of cost of materials/components and how many number of hours required for construction. Label all parts. Necessary components which must be included are grip, line guides (based on manufacturers specifications), guide wraps, and hook keeper. Reel seat needs to be aligned with guides, and guides aligned accurately down rod. Guide wraps of size A to D, nylon, or silk thread. Exhibit will be judged on workmanship, labeling of parts, information, and neatness.

5405. Casting Target - (SF170) - Make a casting target for exhibit and use. Target must be under 48" x 48". The bullseyes must be 2 feet, outer band must be 1 foot in diameter and can have up to 3 rings. The exhibit must be easy to store, durable, and weather resistant. Include the purpose and rules of using your casting target.

5406. Wildlife Harvesting Equipment - (SF171) - Board Exhibit. Display of equipment used in harvesting wildlife. Examples: expended ammunition casings (no live ammunition permitted), steel traps, hide stretchers, fleshers, etc. For displays of shotguns, rifles, or bows, use drawings or pictures. Label all items displayed: the purpose of each item, when or where it is used and personal experiences with the item.

5407. Inventing Wildlife/Fish Harvesting Equipment, Aid or Accessory - (SF168) - Use engineering principles to invent or adapt equipment that helps you harvest fish or wildlife. This could include wildlife calls, adapted fishing pole for shallow water, a blind, decoys, etc. Share your drawing (or adapted plans), how the equipment works, how you tested it, and the results of testing your prototype, and any adjustments you made.

5408. Tanned Hides - (SF172) - Exhibit of a wild animal hide properly processed by the member. If not mounted, must be in a clear clothing bag with hanger. Field experiences, study, OR observations that relate to the exhibit should be included with the exhibit.

5409. Taxidermy - Any legal fish, bird, or other wild animal properly processed by the member. No requirement as to mounting. Include the animal's name and the following: information about the exhibitor's personal field experiences, study, OR observations that relate to the exhibit.

5410. Wildlife Tracks - Board or diorama-type box exhibit. Make a display of animal tracks using plaster-of-paris casts. There are 3 options. For all options, include a brief description of your experiences in making the tracks so the judges better understand what you did and learned. Positive casts (impressions as they would be in nature) are preferred. - Option 1 should show plaster-of-paris tracks of five or more kinds of wildlife along with a picture or illustration of each kind of animal. (OR) - Option 2 should show two or more plaster-of-paris tracks of one specific kind of wildlife and should include a picture or illustration of the animal, what the animal may eat, and what may eat the animal. (OR) - Option 3 should show two tracks and include the animal's habitat needs including preferred food, shelter, water, and space in addition to picture or illustration of the animal.

5411. Wildlife Knowledge Check - Use electrical circuits, pictures, or other methods of teaching wildlife identification or other wildlife conservation or shooting sports related knowledge. Plan size and shape to fit transportation and display; maximum size 24 x 24 inches.

5412. - Houses - Make a house for wildlife. Examples: bird house (bluebird, purple martin, wood duck, kestrel, barn owl, etc.) or bat house; no insect houses. Make the house functional so that dimensions, hole size, etc. are appropriate to fit the intended species' needs. Include the following information: 1) the kinds of animal(s) for which the house is intended, 2) where and how the house should be located for best use, 3) any seasonal maintenance needed, and 4) any evidence of your personal observations from experiences.

5413. Feeders/Waterers - Make a bird bath or feeder. Examples: seed, suet, or nectar feeders. Squirrel feeder okay; no insect feeders. Include the following information: 1) the kinds of animal(s) for which the water/feeder is intended, 2) where are how the water/feeder should be located for best use, 3) any seasonal maintenance needed, and 4) any evidence of your personal observations or experiences.

4-H Woodworking

Conference Saturday before fair week by schedule starting at 9 a.m., Sterl Hall
Superintendent..... Jody Ehrich

1. Read General 4-H Rules. Pre-entry required by deadline at ckff.fairentry.com
2. All woodworking entries must be in place by conclusion of judging.
3. Designate on entry if article is original or kit construction.
4. The plan from which the project was constructed **must** be included with the article exhibited. The plan may be a photocopy, the actual pattern, or a scale drawing. It must be complete and accurate to the extent that a duplicate article could be built using the plan as a guide. Please note: a set of step-by-step instructions is not a plan.
5. Projects with missing or insufficient plans will be lowered by one ribbon placing (i.e. a blue-ribbon exhibit will receive a red ribbon).
6. The use of materials other than wood, screws, nails, and adhesive should be kept to a minimum.
7. Projects that have unsecured glass, i.e. glass shelves, the glass top of a coffee table, etc., should not be brought to the fair. Glass that is secured in the project, i.e. the glass front of a gun case or cabinet, etc., is permissible since it cannot be easily removed.
8. Extra pieces that go with your woodworking project (i.e. bean bags to go with a cornhole set, building blocks to go with a play table, etc) **SHOULD NOT** be submitted with the project.
9. The entry card, plans and all other paperwork should be enclosed in a zip top plastic bag with a hole punched through it and tied or otherwise secured to the project in some manner. Tape is usually not adequate to accomplish this.
10. **Refinished/refurbished furniture will NOT be accepted** for exhibit in the wood working project.
11. Projects made from pre-cut kits are not allowed.
12. In judging woodwork articles, consideration will be given to: Workmanship, including accuracy to the plan; design; choice of wood; suitability, quality of finish, and usefulness.
13. An exhibitor may exhibit a maximum of three entries.
14. Firearms and weapons are not to be entered or exhibited.

15. Projects with “fractal burning” are NOT ALLOWED (Example – electrical burning to make black linework on artwork.) This aligns with The American Association of Woodturners (AAW).
16. During construction of exhibits, PPE (personal protective equipment) is to be worn by those in the workspace.

WOODWORKING

Intermediate and Senior 4-H members may enter any woodworking item of their choice in the appropriate age division class. This allows exhibitors to showcase creativity, craftsmanship, and skills appropriate to their age and experience rather than selecting from specific categories.

4700. Intermediate (ages 9-13)

4701. Senior (ages 14 and older)

***4702 Junior (ages 7-8)**

***471. Woodwork from a pre-cut kit**

FFA ENTRIES

Agricultural Mechanics

Judging - Thursday, 10 a.m.

Awards announced on completion of judging

Superintendent Cauby Hayes

1. All entries must be individual projects constructed or repaired within the past two years in the high school ag department by an agricultural education student who is a bona fide Kansas FFA member or by a current 4-H member with a welding project. FFA members who graduated from high school this May are also eligible to exhibit.
2. Displays will be limited to Kansas high schools with an approved agricultural education program and Dickinson County 4-H members with project enrollment that meets the requirements for this department. Maximum tri-fold size is 3'x4'.
3. Pre-entry required by deadline at ckff.fairentry.com.
4. For Class 900, there is no limit to the number of projects a chapter may enter.
5. Entry time: at time of conference judging, by schedule.
6. Chapter advisers and 4-H leaders are invited to meet with the judges prior to the placing of the exhibits at 10 a.m. Thursday to review procedures. Results will be announced upon completion of the judging.

7. 7. For each project exhibited in Class 900, the exhibitor will furnish a 2' x 3' plywood sign covered with plastic and mounted on the crossbar of a T-rod stake with a moveable or portable base. (Stakes may not be driven into the ground.) This sign should include chapter or individual identification which must be covered during the time of judging, the bill of materials and costs, and pictures are encouraged but not required.
8. Repair projects having adequate original finish need not be repainted.
9. Painting or spot painting is NOT allowed on projects after arrival at the fairgrounds. If wet paint is detected, five points will be deducted from individual score.
10. If a project consists of two or more parts not essential to operation, each part will be considered and entered as a separate exhibit.

Old Timer Beef Showmanship

After the beef show, there will be an “Old Timers Beef Showmanship Show.” Anyone not qualified to participate as a youth exhibitor is eligible to participate, such as parents, guardians, older siblings, or anyone else they would like to enter. A \$5.00 cash entry fee will be collected before the show. The money raised will go towards beef improvements on the fairgrounds. If the Old Timer decides not to show, he or she must pay \$5.00 to decline showing. These animals do not have to be shower owned. You must ask a current 4-Her if you may borrow his/her animal(s). Judging will be strictly on the showmanship of the individual and not on the animal.

Rules

1. Must be 19 years of age or older
 2. \$5.00 entry must be paid before walking into the ring
 3. \$5.00 to have your own name removed from the list
 4. Only breeding/market/open class beef that is on the grounds and entered in the current year beef show is eligible to be used in the contest
 5. Class is judged on the showman abilities, not the animal
 6. Fitting is optional and must be approved by the owner of the animal
 7. Two Divisions: Participant Superintendents reserve the right to break classes based on participation numbers.
 - Division I: Serious Class
 - Division II: Fun Class
- Superintendents reserve the right to break classes based on participation numbers.

3. Each exhibit must have the complete recipe and instructions attached with the entry card, or it will be disqualified. Recipe must include exhibitor name, recipe source, date of publication, and altitude of where food was processed. If using Mrs. Wage's or Ball mixes, indicate the date the mix was purchased.
4. Exhibits must be sealed in clean, clear standard canning jars with matching brand (use Ball lids on Ball jars, or Kerr lids on Kerr jars, etc.) two-piece lids. Do not use colored jars. Do not add fancy padded lids, fabric over wraps or cozies as they interfere with the judging process. No fancy packs unless recipe states to do so (ex: Pickled asparagus). Jars must be sealed when entered. For food safety reasons, the size of jars used must not be larger than the jar size stated in the recipe. Note: There are 12-ounce, 24-ounce, and 28-ounce canning jars available and may be used. Use pint jar process recommendations for 12-ounce jars. Use quart jar process recommendations for 24-ounce jars and 28-ounce jars.
5. Labels – Each jar or container exhibited must be labeled. The label must not cover brand name of jar. The label must give: Class No., Product, Altitude Where Processed, Canning Method (water bath, weighted gauge or dial gauge pressure method), Process Time, Pressure (psi), Date Processed including month and year, Name, and County/District. Templates to make adhesive labels can be found at kansas4h.org under Kansas State Fair resources.
6. Dried food product suggested amount: 1/3 – 1/2 cup, or three or four pieces per exhibit. All meat jerky must be heated to an internal temperature of 160 degrees F before or after drying. This is not the drying temperature! Dried products must include the recipe, preparation steps, and heating instructions. Jerky not heated to an internal temperature of 160 degrees F will be disqualified and not be judged. Heating information can be found in "Dry Meat Safely at Home" www.ksre.ksu.edu/bookstore/pubs/MF3173.pdf.
7. **Jars may not be opened for judging.**
